THE UNREASONABLENESS OF THE STRIKE.

The workmen, we understand, declare they do not intend to go to work at wages less than those for which they originally stood out. This, we understand, is the position of the leaders, reluctantly acquiesced in by the men, who, we have reason to believe, do not, after all, give to it the assent of their judgment, but would gladly resume work at the prices offered. Reason and the facts in the case are with the men and against the leaders—and reason and the facts will, in the end, prevail.

What we have to say on this subject, will be on the supposition that, after all, leaders and men want nothing unreasonable, and intend nothing that is contrary to good sense and the mutual benefit of employer and employed. If this is not their position, then the whole case is prejudged. The mills are idle because, in the present condition of trade, the owners realize they cannot run them with safety and pay more than seven dollars per ten to puddlers, who ask nine. Here is the split. There are thirty odd mills—representing a capital exceeding twenty million of dollars—the vital part of Pittsburgh. Now is it reasonable to suppose for an instant, that the mill owners are acting from caprice, in mere spite, or from any other cause or on any other principle than actual necessity—the absolute laws of business? We know it is said by the leaders in the strike that the mill owners could, if they would, resume at nine dollars without loss and even at a profit. Where or when in all experience, has it ever occurred, that men representing a capital exceeding twenty millions of dollars, permitted it to lie idle and depreciate, when it could be employed even at the risk of some loss? Who are the mill owners that are accused of being engaged in a grand game of bluff with the workmen? Are they less interested in the prosperity of Pittsburgh than the strikers? Is theirs a stake so nominal that they may be supposed to be trifling or acting from mere caprice? Was capital ever, in all the world, found acting so, and is not the suggestion contrary to all experience and reason?

It is demonstrable—a fact well known to the stand-outers—that at nine dollars paid to puddlers, iron cannot be made in Pittsburgh, and sold in competition with other markets; for no where else—with but rare exceptions—is even seven dollars paid, six and six forty being the upper range. The logical sequence of the demand for nine dollars is, and the business fact, were it acceded to, would be, to make Pittsburgh—the great iron center of this continent, with its unparalleled advantages of coal and ore, and of local competition, the point where, of all others, iron should be cheapest—the dearest market in the world! It is precisely to this the strike directly tends. We credit the stand-outers with too much sense to suppose they do not perceive that, as between allowing the mills to stand still, and acceding to a demand like this, on the simplest business principles the decision must be in favor of standing still. It is because we credit the stand-outers with at least common discernment, that we do not permit ourselves to doubt for a moment that every man of them is already persuaded that the demand is not only unreasonable, but must eventually fail—has failed.

No body of men can expect to act independently of all the world besides, or in defiance of its opinion. And yet this is the attitude of the puddlers. What can be more unreasonable—what folly more transparent, not to say criminal—can there be than the attempt to transform Pittsburgh into the dearest iron market in the world? Do men expect to receive support in such an attempt? What is so unnatural as this must fail—what so unreasonable deserves the condemnation it is receiving.

There is another view of the case which the strikers cannot disguise from themselves if they have an intelligent understanding of the business of the country and the laws of trade. The trade of the country the present season is far less than it has been for many years, and considering this fact and the advanced stage of the season, the issue as originally presented—that is, seven or nine dollars—has become so changed that the question now is, rather—*whether it would not be better for the mills to continue idle than to start at even seven dollars?* What little trade there is can be supplied by the mills running on muck-bar and by those that did not stop at all. We believe it is a fact that notwithstanding the mills generally have been stopped so long, these mills have not more than they can do, but are quite able to supply the demand. What inducement there is for the thirty odd mills to start up at any price, is difficult to perceive. And yet to-morrow some of them would probably start at seven dollars—the next day they might not deem it wise to do so.

The European Volcano.

A terrible eruption must before long burst over the whole continent of Europe. Puffs of threatening smoke are being continually blown forth, and, now and again, it seems as if we could almost see the gleam of the coming fire. Poland's pat on the back from Austria is one of them. Russia's cession to us of her American territory, and her concencentration of troops near the Pruth is another. The little affair about the Grand Duchy of Luxembourg, in which France and Prussia are so nearly interested, is a third. And there are plenty more. This last named matter affords the most recent and tangible ground whereon to look for possible trouble, and there seems to be a very general disposition to see the veteran Gallic gamecock and the formidable young German cockerel try conclusions. An impression prevails that the old bird would have the worst of the contest, but with this opinion we do not entirely agree. Allowing for the efficiency of the needle gun—which we believe has been much exaggerated—for the military genius of Moltke, the fighting qualities of the Crown Prince and Prince Frederick Charles, and the administrative capacity of Bismark, we nevertheless believe that the organization and equipment of the French army is by far superior of the two. In a short campaign, at least, we feel confident that France would have the best of it. It should be remembered that McMahon is not a Benedek, nor Napoleon a Francis Joseph; neither has it been the habit of French armies to accept one defeat as virtual annihilation.

* * *

A CONCOURSE OF PRELATES.—The dignitaries of the Roman Catholic Church have been invited by the Pope to assemble in Rome, nominally to celebrate the eighteenth centenary anniversary of the martyrdom of St. Peter, really, no doubt, for vastly more important purposes. Several Bishops will go from the United States—Bishop Domenec, of this diocese, among others. The concourse of prelates will be of almost unpredented character, both as to numbers and the ecclesiastical influence they represent. Our religious cotemporary, *The Catholic*, thinks "it will be a grand sight; a far greater wonder than the Paris Exposition." Who knows but one of those that go from this country will bring back a Cardinal's hat with him. Archbishop Hughes fancied he would, but didn't. Perhaps Archbishop Spaulding may be more fortunate.

* * *

INFLUX OF FOREIGN GOODS.—The New York *Herald* of Thursday says: "The receipts from customs during March were unusually large, amounting to sixteen million dollars. Last year during the same month they were only a trifle over eleven million dollars. This great increase is a sure sign that our merchants have felt encouraged to prepare for an active and extensive revival of trade."

* * *

IN the matter of the Coshocton county, Ohio, treasury robbery, the reported arrest of the ex-Sheriff is erroneous. His name, however, is conspicuously mixed up in the affair, concerning which there are many strange stories afloat.

FIRST EDITION.

12 O'CLOCK, M.

THE CAPITAL.

THE RUSSIAN CESSION.

VIRGINIA AND RECONSTRUCTION.

The Power of General Sheridan.

Trouble Over New York Appointments.

Constitutionality of the Reconstruction Bill.

Special Dispatch to the Pittsburgh Commercial.
WASHINGTON, April 5, 1867.

The Russian Cession.

The Senate Committee on Foreign Relations had another meeting to-day on the Russian cession treaty, but came to no final conclusion. It is thought that the Committee will report the treaty back to the Senate without any recommendation, but submit it for the action of the Senate. It turns out that one of the stipulations requires the ratification of the treaty in ninety days, which will demand the action of the present extra session of the Senate in order to enact it into a legal form. It is very doubtful if the requisite two-thirds vote can be obtained.

The Cabinet.

The Cabinet meeting to-day was unusually brief, though there was a full attendance. Important appointments are no longer considered in Cabinet, which relieves it of much of its business. The question of General Sheridan's power to remove State and municipal officers, and to appoint civilians instead of military men in their place, under the reconstruction act, has been informally discussed by the Cabinet, but it is considered quite certain that there will be no interference on the part of the Administration.

Reconstruction.

The reconstruction law will probably be first inaugurated in Virginia. Gen. Schofield is busily engaged in preparing boards of registry and naming the places and districts for holding elections for State Convention under the supplemental bill.

The Colored Majority.

The registration so far as completed in Washington gives the colored voters 1,200 majority.

Senator Wilson

Has returned from Virginia much gratified by his visit. He was very cordially received on all sides.

New York Appointments.

A number of New York politicians, who have been here for several weeks, endeavoring to regulate appointments, left for home to-night, in a body, thoroughly disgusted and demoralized at the contest between the President and Senate. They despair of ever seeing the offices filled.

Want Pardons.

Among the applications for pardon now on file with pardon clerk in the Attorney General's office, are ninety-seven, from ex-United States Navy officers. The naval service seems to have been the favorite with the Virginians, no less than fifty-two out of the ninety-seven being from that State.

The Reconstruction Act.

The movement to test the constitutionality of the Reconstruction act, as foreshadowed in these dispatches in Tuesday's papers, was carried out with exactness of detail in the Supreme Court to-day. The case will come up for full argument on Friday next, and will last for several days. The mean malice which prompted the telegraphing of a dispatch hence to the Cincinnati *Gazette*, Chicago *Tribune*, and other papers, to the effect that the dispatches anticipating this important matter were April fool hoaxes, was prompted by chagrin and bad temper in not getting news of it.

Gen. Rousseau Confirmed.

The most important act of the Executive session of the Senate to-day was the confirmation of General Rousseau as Brigadier General in the regular army, by a vote of 20 to 16. Mr. Sumner voted in the affirmative with a view to reconsider, which motion he subsequently entered, so the nomination is still pending in the Senate. The New York Senators had recommended General Robinson for this place and Senator Morton, of Indiana, urged the appointment of General Joseph Reynolds, of Indiana. It is understood, however, if Rousseau had been rejected that the President would have nominated General Sickles for the vacancy.

Rejected.

Ex-Senator Nesmith, of Oregon, nominated yesterday as Minister to Australia, was rejected to-day by the Senate almost unanimously.

The Connecticut Election.

The Democratic National Committee have issued an address, congratulating their friends throughout the country on the result of the Connecticut election.

WASHINGTON, April 5, 1867.

THE MISSISSIPPI CASE.

Judge Sharkey and Hon. Robert J. Walker appeared in the Supreme Court this morning, on behalf of the State of Mississippi. The former rose to submit the bill of complaint and prayer that President Johnson and his officers and agents, and especially General Ord, be perpetually enjoined and restrained from executing the act to provide for the more efficient Government of the rebel States, and an act supplementary thereto, and powers of injunction and subpœna, be issued and directed to the parties aforesaid, with any other relief that the Court may deem proper. Judge Sharkey remarked that the bill had been printed. Attorney General Stanebery said he believed it was general practice to obtain leave of the Court to file a bill. This bill was against the United States, and he desired to appear at the earliest possible moment to object to it. He repeated, there must be a motion to file a bill in the regular way. Judge Sharkey replied that this was the motion which he now made. He was aware of the magnitude of the subject, involving, as it does, the important and delicate question of the constitutionality of Congressional legislation. It was of great moment that an early decision should be arrived at, as much mischief might result by delay.

Chief Justice Chase to Judge Sharkey—You can only now move to file the bill, and it will be in order to discuss it the next meeting day.

Attorney General Stanberry—I am ready now to resist the granting of leave.

The Chief Justice—We don't propose to hear an argument on a motion out of regular order. The motion will be filed.

Judge Sharkey—I will now file the application. This he did, and the question went over until next motion day, Friday next.

ROUSSEAU CONFIRMED.

Hon. L. H. Rousseau, of Kentucky, was confirmed by the Senate Brigadier General in the regular army by, it is said, three or four majority. He was favorably recommended to the Military Committee by the following members of the House of Representatives: Messrs. Donnelly, Minnesota; Logan, Illinois; Hays, Buckland, Eckley, Eggleston, Bingham, Ohio; Osburn, Indiana; Van Horn and Loan, Missouri, and Miller, of Pennsylvania.

CONFIRMATIONS.

The Senate to-day confirmed the following nominations: Minister Resident—Alexander Asboth, of Mississippi, to the Republic of Uraguay.

Consuls—Julius Morris, Michigan, to Coblentz, Prussia; Thos. Kilby Smith, of Ohio, at Panama.

Postmasters—J. K. L. Maynard, Waverly, Iowa; Henry C. Smith, Pomeroy, Ohio; James Howell, Shreveport, Louisiana; Edwin M. Hoovey, Teutonville, Michigan; Henry Townsend, Warren, Ohio; Rachel McKibben, Middletown, Pa.; John Bradshaw, Kent, Ohio; Henry L. Robinson, Washington, Ohio; Charles L. Madison, Cambridge, Ohio; John H. Kohl, Shelby, O.; Oliver C. Rawlinson, New Philadelphia, O.; M. J. Crane, Wellsville, O.; David W. McGee, Peoria, Ills.; Samuel Rexinger, Clarksville, Tenn.; Richard Barnett, Vicksburg, Miss.; Jacob A. Kansler, Jackson, Miss.; Leroy S. Brown, Natchez, Miss.; Julius M. Carter, St. Johns, Mich.; Wm. H. Taylor, Saginaw, Mich.; Noble W. Wood, De Witt, Iowa; Robert F. Steel, Genessee, Ills.; E. G. Barker, Mt. Vernon, Iowa; J. K. Rankin, Lawrence, Kansas.

Collectors of Internal Revenue—Fred. W. Curtenius, Second District, Michigan.

Assessors of Internal Revenue—Henry Raymond, Sixth District, Michigan.

REJECTIONS.

The Senate rejected the following: Postmasters—H. W. Anderson, Washington, Iowa; Wm. K. Tillotson, Owassa, Mich.; Abner P. Darlin, Lyons, Iowa; Moses H. Kirby, Upper Sandusky, Ohio; John W. Fuller, Toledo, Ohio; John H. McCormick, Seymour, Ind.

Consul at Ravenna—Gen. G. Barclay, Pennsylvania.

Assessors of Internal Revenue—Adolph Forrenson, Fifth District, Wisconsin; John M. Glover, Third District, Michigan.

United States Marshal—Saml. A. Jones, Western District of Tennessee.

Pension Agent—Frank S. Curtiss, Macon City, Missouri.

CUSTOMS RECEIPTS.

The receipts from Customs for the week ending March 30th, were $2,907,687 10.

LEAVE OF ABSENCE.

Brevet Brig. Gen. M. H. Hardin, is granted a year's leave of absence, from June 1st, with permission to go beyond the sea. The leave of absence granted Brevet Maj. Gen. Pleasants is further extended six months.

MILITARY CHANGE.

Brevet Maj. Gen. Greene, 26th Infantry, is ordered to report to General Pope for assignment. Brevet Maj. Gen. S. W. Getty, Colonel 39th Infantry, is ordered to report to Lieut. Gen. Sherman. Brevet Lieut. Col. F. W. Schaurte, 2d Cavalry, is ordered to join his company at Fort Larimie.

REJECTION OF EX-SENATOR NESMITH.

The Senate to-day rejected the nomination of Ex-Senator Nesmith, of Oregon, as Minister to Austria. It is said a motion was entered to reconsider the vote by which Lovell H. Rousseau was confirmed Brigadier General.

THE RUSSIAN CESSION.

The following telegram was received yesterday:

"SAN FRANCISCO, April 4.—*Hon. Edwin M. Stanton*, Secretary of War: I learn, from a gentleman who has recently visited many parts of Russian America that its value is greater than supposed. The rejection of the treaty would create great dissatisfaction, especially in California. [Signed,] "H. W. HALLECK, Major General.

A letter from Quartermaster General Meigs, expresses surprise that objections are made to acquisition of Russian America. "I can conceive of no greater boon to our Pacific States. I should value Russian America, its fisheries and mines, beyond the hot plains of Mexico or fertile plantations of Cuba. I trust no offers needed to secure this great acquisition will be omitted."

A letter from Commodore Jno. Rogers says he thinks the Russian American acquisition would be valuable, and if worth anything, the price would be a bagatelle.

DEPARTMENT OF EDUCATION.

Edward D. Neil, formerly Superintendent of Public Instruction in Minnesota, and for three years one of the Secretaries of the President, has been appointed Deputy Commissioner in the Department of Education about to be organized.

UNITED STATES SENATE.

Employment of Lewis M. Bogy.

Resolution to Expel a Drunken Senator.

WASHINGTON, April 5, 1867.

Mr. COLE presented a petition of the Veteran Corps of California. He said they served two or three years, and during that time were successful in their contest with various Indian tribes, subduing the Apaches and Camanches in New Mexico. They were discharged nearly two thousand miles from home, and received a mere pittance to reach California, and now ask to be allowed the same rate of transportation given to other discharged soldiers to cover their expenses. The petition was referred to the Committee on Military Affairs.

On motion of Mr. ROSS it was resolved that the Secretary of the Interior inform the Senate whether Lewis V. Bogy is now in the employment of that Department; if so, in what capacity, his duties and compensation, when appointed, by whom, and what instructions, if any, have been given to him, and by whom.

Mr. SUMNER offered a resolution, which he said he would call up to-morrow, that Willard Saulsbury, a Senator from Delaware, having appeared repeatedly on the floor of the Senate in a condition of intoxication, be and he is hereby expelled from the Senate.

On motion of Mr. SHERMAN, the Senate went into Executive session.

MEXICO.

VERA CRUZ IN A STATE OF SIEGE.

Mejia Locked in at Queretaro.

NEW YORK, April 5.—Purser Austin of the steamship Alabama, gives the following summary of Mexican news to March 23d: Vera Cruz is in a state of siege. There is 1,600 men, with five pieces of artillery inside. Provisions are high, but there is no blockade from the sea side. Outside the city there are 3,000 men and four small field Napoleons. Men and guns are expected daily. Mejia is in Queretaro, with 10,000 men. He has no money or provisions. Outside there are 25,000 Liberals. Merida, Yucatan, is also in a State of siege, but there is still communication with Sisal, the seaport of Merida.

HIGHLY INTERESTING.

NEW YORK, April 5, 1867.

CONFIDENCE MAN ARRESTED.

John Stedler, a Detroit detective, arrested today Harry Giffert, a well known confidence man, who six months ago cheated a countryman out of $75 in Detroit. The prisoner is now *en route* to Detroit.

NEW LINE OF STEAMERS.

A California freight line, via Panama, is advertised to-day, W. H. Wickham, agent. The announcement says a first-class steamer will be dispatched April 18th to Aspinwall, connecting at Panama with the sidewheel steamer Oregonian, which sails from San Francisco April 15th. Another steamer will follow from here on May 4th, connecting at Panama with the steamer Idaho, and regularly thereafter semi-monthly.

METHODIST CONFERENCE.

At a meeting of the New York Methodist Conference to-day, Bishop Janes, in propounding questions to candidates for membership, advised that changes of public sentiments must be noted. You cannot reach the people, he said, by sermons preached ten years ago, and if he would make his ministry successful in society this would apply. Attention was called to periodical literature and newspapers. Professor McClintock, of Drew Theological Seminary, in the course of some remarks thereon, recommended sending intelligent colored as well as white men South, which sentiment was applauded.

SAILING OF THE NEVADA.

The Nicaragua line to California have announced that the new steamer Nevada sails on the 20th of April.

ARRIVAL.

The steamer Bellona, from London, arrived to-day.

THE PRIZE RING.

James Elliott, who is matched to fight Charles Gallagher, of Cleveland, O., on the 9th of July, for $500 a side, recently closed an agreement to fight Davis, of California, for $1,000 a side, on the 10th of May, in Canada.

Beta Theta Pi Convention.

INDIANAPOLIS, April 5.—The National Convention of the Beta Theta Pi is to be held at the Bates House, in this city, on Tuesday and Wednesday next. Delegates from all parts of the United States will be present.

The Flood in Louisiana.

The New Orleans papers bring us sorrowful accounts of the ravages caused by the breaking away of the Mississippi. Says the *Times*:

What was left by the ravages of war the waters have swept away, and thousands upon thousands of our people, both white and colored, must be relieved by charity or starve. The levee which has just broken was but recently completed at a cost to the State of nearly half a million dollars. On it our people have staked their credit and their hopes, and the investment has proved an utter loss. Not only will the crops and stock of thousands of our citizens be lost, but they will be driven from their homes and be subjected to swamp fevers and other ailments which will greatly add to the burden of their miseries. A month earlier than usual the waters have attained an unusual height—one never before known at this season of the year—and from all quarters come cries of melting snows and still greater floods.

It is now quite evident that with the breaking up of our old plantation system, which virtually made every riparian proprietor and planter an overseer of the levees on which his success in life depended, we have no sufficient combination of local interests left to afford our people adequate protection from the danger of annual floods. Unless a comprehensive national plan be adopted we greatly fear that the Father of Waters will be left master of the situation, and that much of the rich lowlands of Louisiana will have to be abandoned to their old tenants, the alligator and the gar.

Says the *Price Current*:

We have before mentioned that all the alluvial lands from above Vicksburg to Cairo, embracing the finest cotton producing region in all the South were many feet under water, and we have also spoken of the crevasse at the Roman plantation, sixty miles above the city, on the right bank, which may possibly involve the destruction of most of the crops in five of the most productive sugar growing parishes of the State, and, at the same time, cause immense losses and suffering, by damage to houses, fences, loss of stock, &c. Now we are called upon to record the giving way of the Grand Levee in Point Coupee, which has recently been constructed at an immense outlay, and our latest accounts forbid all hope of the break being mended; also, we learn of a break at the Hawes Harris Levee, said to be a bad one. This last mentioned break is near the division line of Carroll and Madison, both of which are large cotton producing parishes.

* * *

GOV. ORR, of South Carolina, in a speech last week, said:

"While the Constitutional Amendment was proposed to South Carolina as a State, and our own volition in that capacity could be exercised, I opposed its adoption; but the act of Congress recently passed has assumed that this country is a conquered territory, and we a conquered people, and consequently that that body has a right to dictate terms. The *power* exists in that body to dictate those terms, it is certain for the next two years, and when they place themselves squarely and broadly upon that platform, I for one do not propose to go to the Supreme Court or anywhere else for the purpose of disputing that power; but, in good faith, I will accept the terms, humiliating as they may be, and openly, fairly and squarely urge their adoption before our people."

This seems to be about the average of Southern disposition, and action fairly corresponds.

BY THE CABLE.

ENGLISH BUDGET SATISFACTORY.

Death of Dr. Livingstone Confirmed.

PROPOSAL FOR A PRUSSIAN LOAN.

The Budget.

LONDON, April 5.—The Budget gives general satisfaction, and is well received by the press and members of Parliament.

Dr. Livingstone.

All hopes for the safety of Dr. Livingstone, the African Explorer, are abandoned. Later advices from the Cape of Good Hope confirm the report of his death.

Decrease in Bullion.

The regular weekly returns from the Bank of England shows that the bullion has decreased one hundred and eighteen thousand pounds sterling.

Adjournment of German Parliament.

BERLIN, April 5.—The North German Parliament willl adjourn on the 15th inst.

The Prussian Loan.

The Prussian Government is about to raise a loan of thirty million thalers.

A Desperate Rebel.

DUBLIN, April 5.—A desperate rebel, who was taken prisoner in a fight near this city, and who gave the name of McClure, proves on examination to be Col. McIver, a prominent Fenian agitator, and formerly an officer in the United States service.

Shipping Intelligence.

LIVERPOOL, April 5.—The steamer Denmark, from New York, has arrived out.

London Money Market.

LONDON, April 5, Noon.—Consuls unchanged; Erie, 39; Illinois Central, 76½; bonds, 75¼.

LONDON, April 5, P. M.—Bonds firmer, advanced one quarter. Coupons, 1862, 75½.

LONDON, April 5, Evening.—Consols, 91, 5-20's, 75½; Illinois Central, 78¾; Erie, 37¾.

Liverpool Markets.

LIVERPOOL, April 5, noon.—The sales of cotton for the week were 60,000 bales; total stock 668,000, 370,000 of which were American.

LIVERPOOL, April 5, 2 P. M.—Cotton somewhat easier. Breadstuffs firmer and tending upward. Corn and wheat advanced 3d each. Corn is quoted at 41s 3d; wheat 13s 6d for western No. 1 red. Petroleum declined ½d per gallon for standard white; sales at 1s 5½d.

LIVERPOOL, Evening, April 5.—Cotton closed quiet and unchanged; sales 8,000 bales. The Manchester market has a declining tendency.

Breadstuffs closed firm. Flour—Western Canal 28s 9d. Wheat—No. 1 red Milwaukee 13s 3d; California white 13s 6d. Corn 41s 3d for mixed Western. Corn and Barley unchanged.

Provisions unchanged. Produce—Petroleum declined to 1s 5d for refined. Spirits turpentine declined to 37s.

Frankfort Money Market.

FRANKFORT, Evening, April 5.—United States bonds 78.

Paris Money Market.

PARIS, Evening, April 5.—United States bonds 84¼.

For the Benefit of the Pope.

The system of voluntary contribution, made by the faithful of the Roman Catholic Church in the old world, toward the support of the dignity and power of the Papacy, has been revived in this country for the direct benefit of His Holiness, Pius the Ninth. A collection toward this fund will be taken up in all the churches of the diocese of Pittsburgh on Easter Sunday, Bishop Domenec having, in a general circular, appointed that day for the purpose. The Bishop says that this pecuniary aid has become necessary, owing to the unjust spoliation of the greater part of the Pope's temporal dominions. He also quotes from the Pastoral Letter of the Fathers of the Council lately held in Baltimore, a reminder of the obligation of "supplying the temporal wants of those who minister to the spiritual necessities of the laity," and the special manner of its application to "the Sovereign Pontiff, who incurs great expense in discharging the duties of his high office." The poor are encouraged to bring forth their mite, be it ever so small, while the rich are incited to subscribe by being told that it is the Bishop's intention "to have published, in pamphlet form, the names of all the churches and the amount collected in each congregation, with the names of the givers—as far as it can be done—to be presented to the Holy Father."

The Atlantic and Great Western Railway.

The Meadville *Republican* of Wednesday says: The Board of Directors met at the office of the A. & G. W. R. Co. yesterday to take such action as was necessary to transfer the management to the Receiver. Two sessions were held yesterday and another this morning. The President, S. S. L'Hommedieu, Esq., and General Superintendent, General D. McLaren, tendered their resignations to take effect on the 1st of May. General McLaren in a pungent letter replied to the strictures of Mr. James McHenry and other English capitalists in regard to the management. The letters of other officials on the same subject were also laid before the meeting. This morning, by direction of the Board, Mr. J. J. Shryock, Vice President, turned over the books, papers and affairs of the Company to the charge of Gen. Potter, the Receiver. The various departments, we are informed, will remain under their present managers for the present, at least. Whether any changes will be made is not yet certainly known.

* * *

GALENA DISCOVERY IN BEDFORD COUNTY.—The Hollidaysburg *Leader* says: "A gentleman reports to us, that a few days ago he discovered a very valuable deposit of galena or lead ore, in Middle Woodberry township, Bedford county, some four miles from the town of Woodberry. A party visited a cave in that neighborhood, and in one of the chambers some mineral substance seemed to fill, the crevices of the rock, and upon examining it, it was found to be a lead vein. Subsequent searches disclose the fact, that the surrounding rock contains some excellent veins of this mineral. The owner of the land, whose name we believe is Wagner, refuses to allow parties to attempt its development. He has been offered a good price for his land or for leases, but refuses either to sell or lease.

* * *

THE CONFEDERATE COTTON LOAN.—Some of the foolish people who invested their money in the Confederate cotton loan held a meeting yesterday. It was stated that, as the United States Government was claiming property in this country said to have belonged to the so-called Confederate States, the cotton bondholders had a right to interpose with a prior claim. Resolutions were passed declaring that the bondholders would act in this way, and seek to recover their losses by obtaining possession of the property in this country to which the United States, were laying claim.—*London Star, March 21.*

* * *

HONEST LEGISLATORS.—The Bedford *Inquirer* approves of the course of Representatives Richards and Weller, because their votes have been in strict accordance with the best interests of their constituents, and because "they are trictly honest." It says: "This is saying much for men who have to meet face to face such an amount of venality and corruption as stalks abroad in the Capitol of Pennsylvania. The men who maintain their integrity in Harrisburg during this session of the Legislature, should have their statues placed in the rotunda of the capitol with the inscription in letters of gold, 'While the masses were corrupted we maintained our integrity.'"

* * *

PAYING IN GOLD.—With that disinterested regard for the national credit and the welfare of the public generally, which are known to characterize persons elected to political positions, the members of the Kentucky and Wisconsin Legislatures have passed acts requiring the payment of their own salaries in gold. Arkansas has been trying to follow suit, but the precious metal is so scarce in that State as to compel a compromise. Members are to be paid in greenbacks at the ruling rate of premium on gold.

IT will gratify the country to hear that the Secretary of the Interior has commenced an investigation of the manner in which the census has been taken in years past, and will make some preliminary remarks in his next annual report to the President, on the manner in which the census of 1870 should be taken. It is to be hoped that the time allowed to the census-takers will be shortened, although it may not be practicable to have the entire work done in one day, as in Great Britain.

THE counsel of Surratt have, it is alleged, determined to make formal application for Booth's diary, on the ground it will be of great importance to their client, as going to show that Booth looked to no aid or comfort in the work of assassination at the hands of John Surratt. Charles O'Connor is said to have accepted the post of consulting attorney in the preparation of the defense.

APRIL with her tears and smiles, with now and then a chilling scowl, is as natural as life. The grass starting, the buds swelling—but who has found a violet?

SECOND EDITION.

4 O'CLOCK, A. M.

HARRISBURG.

PROCEEDINGS OF LEGISLATURE.

THE CONSOLIDATION BILL

FINAL PASSAGE OF THE ACT.

Local Bills Passed Both Houses.

Pennsylvania Railway Freight Discriminations.

Senator Bigham's General Railroad Law Ordered to Third Reading.

OPPOSITION BY THE MONOPOLY.

Special Dispatch to Pittsburgh Commercial.
HARRISBURG, April 5, 1867.

Mr. Colville called up the consolidation bill. Mr. Chadwick offered an amendment dividing the middle district as provided in the bill into two districts—to make the city of Pittsburgh one, and the boroughs and townships between the rivers an additional district. In submitting the question, Mr. Colville opposed the amendment and presented as the bill had been agreed upon by the committees from Allegheny county.

Mr. Wilson said he was always in favor of consolidation, but he thought Mr. Chadwick's amendment proper, inasmuch as it would give the people between the rivers a chance to decide upon the question. But he would not endanger a project he was so interested in by opposing it. On that ground, therefore, he would support the bill on the ground that the act would place Pittsburgh in the position that her great wealth and population entitled her to. Instead of having her annual products appear in the statistics by tens of thousands, as had been the case, she would appear in her proper position, counting her resources by hundreds of thousands.

Mr. Chadwick's amendment was voted down, and the bill passed without a division as it came from the Senate.

HARRISBURG, April 5, 1867.

SENATE.

Reports of Committees.

The General Appropriation bill was reduced to three hundred thousand dollars by the Senate Finance Committee.

To incorporate the South Pittsburgh Co-operative Association.

To incorporate the Building and Savings Association of Pittsburgh.

To increase the capital stock of the Venango waterworks.

Supplement to act incorporating the Merchant's Bank.

To incorporate the Meadville Saving's Bank.

Bills in Place.

Act relating to public roads in Rostraver township, Westmoreland county.

Mr. Bigham—Supplement to Eagle Cotton Manufacturing Company.

Mr. Taylor called up and passed the act incorporating the Monongahela Valley Railroad Company, finally.

The appropriation bill was considered and passed in Committee of the Whole.

HOUSE.

The following bills were passed: To increase the compensation of Assessors in Allegheny county.

Act to incorporate the Citizens' Ferry of Pittsburgh.

To incorporate the Sandusky and Irwin street Bridge Company.

To authorize an increase of taxes for borough purposes in Temperanceville.

To require the Pennsylvania Railroad Company to keep watchmen at East Liberty.

Supplement to act incorporating the city of Meadville.

To change the time of holding Courts in Greene county.

To incorporate the Oil City Passenger Railroad.

The special Committee to investigate the charges of discrimination by the Pennsylvania Railroad Company, reported that the testimony sustained the charges, and ask for legislative protection for the citizens of the Commonwealth.

The General Railroad bill, which passed to a third reading on Wednesday night, is the Bigham bill, pure and simple. It was opposed by the Pennsylvania Railroad interest.

FROM RICHMOND.

The Work of Reconstruction Commenced

RICHMOND, VA., April 5.—Gen. Schofield issued an order providing for registration. There is to be one registering officer for each magisterial district in counties, and one for each ward in the cities, whose qualifications are to be having been an officer in the United States army, or being a loyal citizen of the county in which he acts, or of some other county in the State; have a high character, and, as far as possible, have the confidence of his fellow-citizens; he shall not be a candidate for any office. The appointment of all officers is to be made by General Schofield, according to the recommendations made by an examining board of military officers.

From St. Louis.

ST. LOUIS, April 5.—The reported massacre at Fort Buford is not credited here. Letters have been received from Fort Sully, by gentlemen of this city, of a later date than the one upon which the story is based, which report all well, and make no allusion to any disaster. Gen. Sherman has no advices of the massacre, and disbelieves the report.

The United States District Court of Kansas granted an injunction against the collection of taxes on lands belonging to the Union Pacific Railway in that State.

Volunteers in Canada Under Martial Law

TORONTO, April 5.—The whole volunteer force which were recently ordered to hold themselves in readiness, are to be placed under martial law by authority of the Queen's regulations. The different corps in the district have been placed under command of Maj. Gen. Hiested.

From Columbus, Ohio.

COLUMBUS, O., April 5.—General George B. Wright has been appointed Commissioner of Railroads and Telegraphs.

The suffrage resolution still hangs on amendment.

Another Crevasse.

NEW ORLEANS, April 5.—Another crevasse is reported at Duck Point, Madison Parish.

LATE NEWS ITEMS.

An Imperial report from Vera Cruz says that Escobedo had been attacked by Mejia and routed. Also that Corona had been routed by Mejia while attempting to join Escobedo.

A Cincinnati dispatch of yesterday says: H. Varrig's Spice Mill, 423 Court street, was damaged by fire this morning to the extent of five thousand dollars. The third and fourth stories of McHenry & Carson's gas fitting establishment, and Powell's gun store, on Union street, between Fourth and Fifth streets, were also burned this morning. Loss about fifteen thousand dollars.

Leonard Huyck has been released on bail by order of the Government, on the ground that there did not appear sufficient evidence to justify his further detention. He was under arrest in default of $200,000, and the Government reduced the amount to $1,000, Joseph B. Stewart justifying as security.

In the New York Superior Court on Thursday in the case of Moses Strasberger vs. the Western Union Telegraph Company, for the non-delivery of a telegram, the jury returned a verdict for the plaintiff for six hundred and eighty-six dollars and fifty-five cents. The plea set up by the defendants was that a storm prostrated the wires, and they were unable to forward the dispatch.

The New York *Herald's* Havana correspondence of March 20, says: I am informed by passengers on board of the steamer Barcelona that a revolution in Hayti which had taken place was of the most bloody kind. The loss on the part of Revolutionists was very heavy and the streets of Port au Prince were literally covered with the dead. This is the fifth attempt to crush Geffrard's Government, and is at last successful so far as Geffrard is concerned. The *Tribune's* Havana correspondence of the same date, says Geffrard succeeded in getting the upper hand of the insurgents, after a desperate engagement in which many lives were lost, the rebels being terribly cut to pieces by the shells and projectiles of Geffrard's partisans. The streets of Port Au Prince, were strewn with the dead bodies.

CITY MATTERS.

BOARD OF TRADE.

The Consolidation Project—Report of the Special Committee.

A meeting of the Board of Trade was held at their rooms on Wood street, yesterday afternoon at three o'clock. The attendance, however, was not large. The committee appointed to prepare an act for the consolidation of Pittsburgh, Allegheny and the surrounding boroughs, submitted a report, but owing to the fact that the bill had passed the Legislature yesterday, no action was taken on it. The following is the report:

The Committee appointed by the Board of Trade to prepare an act of consolidation, have attended to that duty and now report that they have prepared a charter in the form of an act of Assembly, which is herewith submitted.

The first question to be considered was that of fixing upon the boundaries of the new corporation, and in this the committee considered it proper to extend to them so far, at least, as to include the two cities and the adjacent boroughs, with such intervening and continguous territory as was required to give symmetry and compactness to the whole; and they have accordingly been so arranged. Many persons would perhaps prefer having the city limits more widely extended, so as to include Wilkinsburg, and a greater extent of territory along the shores of the rivers. But the Committee deemed it better to leave the question of wider extension to be determined hereafter, whenever a necessity for it may arise.

In devising a plan for the settlement of the present corporations, the Committee were of the opinion that the new corporation should assume, and provide for the payment of all such debts; and that it should at the time receive and have control of all the property owned by the present corporations; with a provision that in every case where the debt assumed by the new corporations exceeded the value of the property received by it, such excess of debt should be paid by a special tax to be separately levied on the debtor district. By this plan any of the present corporations, which may possess property equal in value to the amount of its debt, the taxpayers therein will be relieved from all apprehensions of any future taxation beyond the amount required to defray the current expenses of the city government. The details of this plan are fully set forth in the accompanying bill, in which the Committee have endeavored to provide for a just and impartial arrangement of all such debts.

In defining the powers of the corporate authorities, the committee were of opinion that it would be more advantagious to make them somewhat larger than heretofore, in the belief that many of the minor matters for which the city must now have more special authority from the State Legislature would be more wisely decided by the city legislature, who with better personal knowledge of the subjects, would act under a more direct responsibility to their immediate constituents. They have endeavored also to separate more distinctly than formerly, the legislative powers from executive duties. The power of enacting laws, are as usual vested in the Select and Common Councils, and the duty of executing the laws, is confided to executive officers.

The duties of a Mayor, under this act, will embrace a much wider field, as on him alone will devolve all the duties now performed by the thirteen present chief magistrates. It is therefore proposed to relieve him from the minor police duties now performed by them, and to confide such duties to a Police Judge; and also to elevate the grade of office of both Mayor and Judge, by relieving them from a dependence on petty fees, and providing instead a suitable compensation for each, in the form of a fixed salary. The Mayor would then be enabled to devote the whole of his time and attention to the higher duties of a general supervision over the management of all city affairs, in a manner becoming the chief magistrate of a great city.

No change is made in the school laws by this bill. The public schools remain as heretofore, under the laws and regulations now in force.

The Committee may in conclusion observe, that as the Legislature will be in session when this act will go into operation in January next, any deficiencies which may be found in the bill, may then be supplied.

W. WADE.
T. J. BIGHAM.
J. HERON FOSTER.
C. D. BRIGHAM.
FELIX R. BRUNOT.
JAMES M. COOPER.

The bill prepared by the Committee, and referred to in their report, is the bill that passed the Senate a few days ago with certain amendments, and passed the House yesterday, and which is now in the Governor's hands.

Local Religious Intelligence.

REV. L. F. MORGAN will preach a sermon to young men, under the auspices of the Young Men's Christian Association, to-morrow evening, in Christ's M. E. Church, corner of Penn and Hancock streets. Services to commence at half past seven o'clock. Full attendance desired.

PITTSBURGH M. E. CONFERENCE BOUNDARIES.—The committee appointed by the Pittsburgh Conference of the Methodist Episcopal Church, at its last session, to consider the question of Conference boundaries, will meet in this city on the 30th inst., at nine o'clock A. M. Revs. H. Miller and W. H. Kincaid have been appointed a committee to secure a place for meeting, and make the necessary arrangements for accommodation of the brethren during the meeting. It is expected that the Bishops at their meeting at the same time and place, will express some opinion in relation to the Conference boundaries.

RELIGIOUS REVIVAL.—A great work of revival has been going on in the Methodist Episcopal Church, at Franklin, Pa., under the pastoral labor of Rev. J. R. Lyon. About two hundred have professed their faith in Christ, and one hundred and forty-four have united with the church. Sunday week ago forty-four persons received the ordination of baptism. The good work still goes on.

PASTORAL DONATION.—The friends of Rev. W. Darby, Methodist minister at Shousetown, Crescent township, a few evenings since presented that gentleman with valuables amounting to fifty-five dollars. The friends of Rev. W. Darby, at Noblestown, Fayette and Clinton, also gave him some substantial evidences of their good will.

Dedication of Mozart Hall by Pittsburgh Division, No. 42, S. of T.

The grand dedication of Mozart Hall, Seventh street, to the cause of "Total Abstinence," by Pittsburgh Division, No. 42, Sons of Temperance, took place last evening. The hall was filled by the Division, and those invited, not members. The hall was dedicated by John D. Bailey, Esq., D. D. G. W. P. Chas. W. McIlenry, Esq., on behalf of some of the gentlemen members of the Division, in a few appropriate remarks, presented Mr. Bailey with two handsomely bound volumes of Shakspeare's Works. Worthy Patriach McGaw also made a few remarks. Some excellent music was furnished by a choir of ladies and gentlemen, and also some string music by the Great Western Band.

The hall has been entirely refitted, at a cost of about twenty-five hundred dollars. The floor is carpeted with the finest Brussels carpet, new furniture has been placed in the saloon, and the whole hall newly painted and papered. On the wall at the entrance to the hall is inscribed the following: "The Pledge; I will neither make, buy, sell, nor use as a beverage, any spirituous or malt liquors, wine or cider."

This division is now one of the largest and most flourishing in the western part of the country. It now numbers about four hundred members, which is largely increased every meeting night. The officers elected last week were installed on Thursday evening, by John D. Bailey, D. D. G. W. P.

Relief for the Suffering at the South

To the Editor of the Commercial:

Allow me to acknowledge the receipt of one thousand dollars, from Messrs. Baker & Henrici, Trustees of the Harmony Society, at Economy, to be disbursed for the above purpose without regard to race or color, by W. F. Mitchell, our Superintendent of Schools at Nashville. It is creditable to the patriotism, intelligence and christian feeling of the good people of Economy, that they should take the lead in this matter. They have waited for some days hoping that there would be some general movement, but in the absence of this they have concluded to send their contribution without further delay. Should there be any others disposed to do the same I shall be happy to forward the amounts in accordance with their instructions.

JOS. S. TRAVELLI,
Gen. Agent F. A. Com., 37 Fifth street.
PITTSBURGH, April 5, 1867.

POLICE INTELLIGENCE.

[Before Alderman Strain.]

FELONIOUS ASSAULT AND BATTERY.

Jesse Crosland appeared yesterday and made an information against Frank Rea, charging him with felonious assault and battery. The prosecutor resides at Two Mile Run, in Pitt township, and alleges that on the 2d inst. Rea struck his wife, who was pregnant and confined to bed, thereby endangering her life. Rea was arrested and held in one thousand dollars bail for his appearance for a hearing this afternoon.

SELLING GROCERIES WITHOUT LICENSE.

Officer James Brown made information against M. W. Dexter and —— Biddle, store keepers in Philadelphia, charging them with selling goods, wares, groceries and merchandise in this city without a license, and without having taken the necessary bond that they intend to do business in the city for twelve months. Warrants were issued for their arrest.

[Before Alderman Taylor.]

ALLEGED LARCENY OF A WATCH.

A boy named J. H. C. Bolton, a stranger in the city, was arrested yesterday by officer Bell at the Union Depot, charged, on oath of W. Schulter, with the larceny of a silver hunting cased watch from a jewelry store on Penn street. After a hearing the boy was discharged, there being no evidence sufficient to hold him.

[Before Alderman Lindsey.]

Michael Mannus appeared yesterday before this magistrate and lodged a complaint against Mrs. Sarah Peeples, charging her with selling liquor on Sunday. She was committed to jail in defaul of bail for a further hearing this afternoon.

[Before Burgess Barker, of South Pittsburgh.]

TWO CHARGES OF ASSAULT AND BATTERY.

Wm. Connelly was arrested yesterday, on two charges of assault and battery, preferred against him by his wife, Mary Connelly. The parties reside in West Pittsburgh, and the alleged assaults took place on Thursday. In default of five hundred dollars bail in each case, William was committed to jail for trial.

[Before Alderman Mullin, of Allegheny.]

ALLEGED ASSAULT AND BATTERY.

Adam Farber appeared and lodged an information yesterday against Charles Sproul and Thos. Sproul, for assault and battery. Farber is foreman in H. P. Adams & Son's keg factory, on Sandusky street, Fourth ward, Allegheny. The Sprouls were also employees of the same establishment.

THE COURTS.

COURT OF COMMON PLEAS.—Before Judge Mellon.

H. B. Vanvoorhis, for use of Jerome Vanvoorhis vs. Mansfield B. Brown, Trustee of estate of Albert Culbertson. It was alleged by plaintiff that in March, 1864, a paper mill belonging to said Culbertson, and located in Monongahela City, Washington county, was destroyed by fire. An insurance of $3,000 had been effected on the works in the Columbia Insurance Company, and the fact being known to plaintiff the company was garnisheed. Jury out.

Montgomery Oil Company vs. Gerard Oil Company. Action to recover $1,000, the alleged value of a quantity of oil barrels. After the first witness had been examined the jury was withdrawn and plaintiff took a non-suit.

DISTRICT COURT.—Before Judge Williams.

City of Pittsburgh vs. William Ward. Action to recover the sum of $85 68, with interest, for grading and paving in front of defendant's property, on Center avenue, in the Seventh ward. A special verdict was rendered for plaintiffs for $85, subject to the decision of the Court on questions of law reserved.

Dr. George S. Foster vs. C. H. Drake. Action to recover $350 alleged to be due on a contract. On trial.

COURT OF QUARTER SESSIONS.—Before Judge Sterrett.

The jury in the case of David E. and George Hall, rendered a verdict yesterday morning, of not guilty on the charge of mayhem, but guilty of a misdemeanor in unlawfully cutting and wounding the prosecutor, Peter Delaney. The counsel for the defendants made a motion for a new trial, and filed reasons therefor.

John Lutz, constable of Reserve township, was arraigned on a charge of barratry, on oath of Conrad Eberhart, a well known brewer and saloon keeper of Troy Hill. Lutz had been engaged as a police officer at Alderman Donaldson's office, on Penn street, and the Alderman testified that Lutz had made informations before him charging certain parties with illegal liquor selling. A number of these cases had been settled by defendants paying sums ranging from thirty to eighty dollars, and the only records kept of such cases were the informations taken at the time the suits were instituted. The Alderman's docket was put in evidence, when it was discovered that no entry had been made of any of them. Philip Bielstein testified that Lutz had charged Wm. Berger with illegal liquor selling, and Berger being absent from home his daughter requested witness to look after the matter, which he did, and paid Lutz twenty-five dollars in Alderman Donaldson's back office, with the understanding that the prosecution would be withdrawn. After Lutz received the money he handed it to the Alderman. George Schmidt and James B. Jones testified that they had given Lutz various sums of money to settle prosecutions against them for the same offense. For the defense, Alderman Humbert testified that Lutz had made five informations against tavern-keepers of Allegheny, and that he had fined them each fifty dollars and costs. He exhibited his docket, which showed that one-half the amounts of the fines ($125) had been paid over to the Directors of the Poor of Allegheny, and the other half to the prosecutor. The case is exciting considerable interest, and has not yet been concluded.

J. BENSWANGER & CO.,
55 MARKET STREET,
Between Third and Fourth Sts., Pittsburgh, Pa.

Duff's College.
No. 37 FIFTH STREET
PITTSBURGH, PA.
THE OLDEST BUSINESS COLLEGE IN AMERICA.
DUFF'S SYSTEMS
OF
Mercantile, Bank, Railroad
AND
Steamboat Bookkeeping.

Which are sanctioned by the Chamber of Commerce of New York as the most thorough systems of accounts before the public. These treatises are taught under the supervision of the author, assisted by several experienced business accountants. The course of study in this institution has been perfected by twenty-seven years unremitting application by its founder and proprietor. Its superiority over all others is attested by our city banks and business men generally. A large eight page quarto Circular mailed free, giving terms and all particulars. Address,
P. DUFF & SON,
Principals, Pittsburgh, Pa.

DISSOLUTION OF COPARTNERSHIP—The partnership heretofore existing between Louis H. Voigt and Daniel Shupe, under the name of L. H. VOIGT & CO., was dissolved on the first day of February, 1867, by mutual consent.
LOUIS H. VOIGT,
DANIEL SHUPE.

WE HAVE THIS DAY ENTERED into partnership under the firm name of L. H. VOIGT & CO., for the purpose of carrying on the Produce and Commission Business, dating from the first day of February, 1867.
L. H. VOIGT,
SAMUEL MAHOOD,
DANIEL SHUPE,
ALEX. M. VOIGT.

RAILROAD BONDS.

FISK & HATCH,
BANKERS,
AND DEALERS IN
Government and other Desirable Securities.
No. 5 Nassau St., N. Y.,
Recommend to Investors the
FIRST MORTGAGE BONDS,
OF THE
CENTRAL
PACIFIC R. R. CO.

This Company is constructing under the patronage of the
United States Government,
the Western end of the
Great National Railway Across the Continent.

Their line will extend from Sacramento, California, across the Sierra Nevadas to the California State Line, traversing the *Richest and most Populous Section of California*, and thence through the *Great Mining Regions of the Territories*, to the vicinity of Salt Lake City.

It forms the *sole Western link* of the only route to the Pacific which is adopted by Congress and *aided by the issue of United States Bonds.*

Their road is already completed, equipped and running for 94 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunnelling, &c., beyond that point has been accomplished.

The First Mortgage Bonds of this Company afford unusual inducements of Safety and Profit to Investors, for the following among other reasons, viz:

First. The rate of interest is *Six per Cent. in Gold*, payable semi-annually in the city of New York.

Second. The *Principal* is payable *in Gold* at maturity.

Third. The cost of the Bonds, *Ninety-five Per Cent.* and accrued interest, is *Ten Per Cent.* less than that of the cheapest Six Per Cent. Gold Bearing Bonds of the Government.

Fourth. The *United States Government provides nearly half the amount necessary to build the entire road, and looks mainly to a small percentage on the future traffic for re-payment.*

Fifth. Owing to this liberal provision, accompanied with *Extensive Grants of Public Lands*, by which the Government fosters this great national enterprise, *its success is rendered certain, and its financial stability is altogether independent of the contingencies which attend ordinary Railroad enterprises.*

Sixth. The Security of its *First Mortgage Bonds* is therefore *ample*, and their character for safety and reliability is equalled only by that of the obligations of the *Government itself.*

Seventh. The net earnings of the completed portion are *already largely in excess of the interest obligations which the Company will incur on twice the distance*, and are steadily increasing, rendering the *uninterrupted payment of the Interest absolutely certain.*

Eighth. At the present rate of Gold they pay nearly 8½ *Per Cent.* per annum, on the amount invested.

The Bonds are issued in denominations of $1,000 with semi annual Gold Coupons attached, payable in New York, and are offered for the present at 95 per cent. and accrued interest (in currency) from January 1st.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes or other funds current in this city, and the Bonds will be forwarded to any address by express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

FISK & HATCH,
BANKERS AND DEALERS IN
GOVERNMENT SECURITIES,
NO. 5 NASSAU STREET, N. Y.

N. B.—All kinds of Government Securities received at the full market price in exchange for the above Bonds. Also,

All descriptions of Government Securities kept constantly on hand, and Bought, Sold or Exchanged.

☞ Gold Coin and U. S. Coupons bought, sold, and collected.

Deposits received on Liberal Terms, subject to check at sight.

☞ Collections made throughout the country.

☞ Miscellaneous Stocks and Bonds bought and sold at the Stock Exchange on commission for cash.

Special attention given to the Exchange of SEVEN-THIRTY NOTES of all the series for the new FIVE-TWENTY BONDS of 1865, on the most favorable terms.

THE PLACE TO BE SUITED.

FASHIONABLE HATS,

GRAHAM & BYRNE,

53 ST. CLAIR STREET.

The Daily Commercial

SATURDAY, APRIL 7, 1867.

☞ THE DAILY COMMERCIAL *is circulated in all parts of the State, in Western Virginia, Ohio and adjacent States, and without comparison, is the best advertising medium in Pittsburgh.*

☞ THE COMMERCIAL *gives the only complete reports of the local markets published, and is accepted as authority by dealers at home and in all the principal cities.*

☞ THE COMMERCIAL *is sold everywhere in the cars; and by News Dealers at all the principal points. Price five cents a copy.*

☞ THE COMMERCIAL *solicits local correspondence, giving events of interest, concisely written; also, of improvements, inventions and personal movements.*

☞ THE COMMERCIAL *is the only paper in Pittsburgh that uses the telegraph freely. Its special dispatches are from correspondents selected for their intelligence and reliability.*

THE Bogus Free Railroad Bill is likely to pass the House as it came to that body from the Senate—a bill, as Speaker HALL (though he voted for it) felicitously termed it, that would prove utterly impractical for the construction of railroads, and is unconstitutional besides. When it reaches the Executive Chamber, we doubt not the people will find that the influence that has pushed it through the Legislature will cease to operate. The people look to Gov. GEARY to save them from this disabling act.

THE Legislature appears intent on appropriating from the State Treasury money to repair damages sustained by the citizens of Franklin, York and other counties, from the rebels during the war. A bill appropriating half a million of dollars to that object has passed the House and probably has in it the elements to pass itself in the Senate. Considering how many cases of the sort there are, and the way things are carried on at Harrisburg, the State should be very rich. We have great confidence in Treasurer KENDLE's ability to manage our finances, but he seems likely to be put to a severe test.

THE bill consolidating the cities of Pittsburgh and Allegheny and the adjacent boroughs into one city, under the name of PITTSBURGH, has become a law, with a provision submitting it to the people of the three districts included within the new limits—such only as shall accept the provisions to be included in the consolidated city. This form of submission was adopted principally in deference to the opposition urged from Allegheny. Whether the condition attached really involves the question of regularity or affects the validity of the legislation, or of the vote proposed to be taken, or of both, may come up for future consideration. Neither the Legislature nor the Governor entertained a doubt on the subject—nor are we certain the decision of the Courts, that the people are no part of the law-making power, and that legislation cannot be made contingent on their subsequent action, touches this case. There are decisions that the action of the legislature is, and must be, absolute and final; and we believe there are also decisions that go to sustain submission, as in this case.

As we said yesterday, the bill is not, in every respect, what the original friends of Consolidation desired; but we presume it will be heartily accepted, as so much progress towards the accomplishment of the object they sought. There is ample time to consider the matter in all its bearings, and we only hope it will be considered and acted on calmly and with an enlightened regard to the interests of all concerned.

THE FIRST CONVENTION.

The Convention in North Carolina, an account of which we gave in yesterday's COMMERCIAL, was in its character and constituency a novelty in the political world. It strikes one, on reading the description and the proceedings of the meeting, as nothing less than a phenomenon. And as such, we feel bound to stand a moment and gaze at it, and to spend another moment in removing the surprise which the first glance occasions.

We see in the capital of a State which has till recently, by law, held black men to be chattel property, a Convention composed of one hundred white and fifty black men, meeting in amity, dividing the offices of the Convention among them, and adopting a platform of which no party need be ashamed, and which is in perfect accord with the letter and spirit of our American institutions. In the resolutions we notice no allusion to the distinction of races or the difference of color. Any set of Democratic resolutions, of the same length, would probably have had the nigger in it not less than twenty times. There were present, as spectators, some individuals of all classes, Union men taking no part in the proceedings, and rebels, both military and civil. The proceedings were conducted with good feeling and good order. Over the speaker's chair were blazoned the words, "Unity, Liberty, Equality," indicative of the character of the meeting. A change so great that it is difficult to realize it has occurred. But it is the past that has been the horrid dream; the present is a joyous reality.

What we see is but the accommodation of events to the new era introduced. It is not a leveling down but a raising up. Liberty and the vote have vitalized the manhood in a race in which it was deadened by slavery and oppression. Who can for a moment believe that, were our political arrangements now being made for the first time, and our constitution was now being framed, the old distinctions between the races would be introduced? Constitutions, like other laws, express the mind of the people, with reference to principles, and their will with reference to rules, but both may be changed by time and events. Time and events have changed the people's mind with reference to the distinction of races and the right of making color and not character the basis of citizenship. Why should it occasion surprise, then, that in North Carolina, a loyal Convention should ignore complexion and constitute its membership on the ground of loyalty? Why should it occasion surprise to see loyal men of color in the Convention, as members, and rebel whites occupying back seats as spectators? If the United States Constitution were now in process of formation—after the events of the past six years—it could embody no recognition of slavery, it would disfranchise no man for his color, it would admit no man to citizenship, who had deliberately, and of his own choice, fought against the Government.

The Convention in North Carolina was a purely political one, having reference only to the existing condition of the country on that subject. It had no connection with other subjects or interests. It was not a religious meeting, it was not a social gathering, it was not a scientific or literary convention, but simply and solely a political assembly. As such, though a novelty, it was but the introductory one of a series destined to be perpetual.

IT makes little difference to the United States government, whether the mass of the white people in the seceded States shall be active or passive under the law passed for their restoration. It will go into legitimate operation all the same. But perhaps it may make some difference to the Southern people themselves. Certainly it is better for those entitled to do so, to take some interest in the business and to exert themselves in carrying out the wise provisions of the law.

MR. A. H. STEPHENS has been represented as opposed to the Southern people doing anything actively under the Sherman law. This is denied by a Southern journal. Mr. STEPHENS, who is in extremely feeble health, is said to be inclined to inaction himself, on the ground that he is a prisoner of war, and, as such, not justifiable in taking part in public affairs. The same sentiment has been attributed to Gen. LEE. It may be just as well for those who are in their situation to think so and to act accordingly, but according to our idea, all the rebel leaders occupy the position not of prisoners under parole, but of insurgents, subdued but not arrested for trial and punishment.

THE NORTHWEST CORNER.

The very common impulse, "to get a little more land," which farmers are apt to feel, has not been entirely without influence on the United States Government, as the history of the past demonstrates. And it must be admitted that the acquisitions of territory heretofore made have turned out to be worth all that was paid for them. Whether the contemplated acquisition of the Russian territory, in the northwestern corner of the American continent, would prove so too, is a question in which there is a difference of opinion. Some think the price to be paid for it too great, some think it would be dear at any price, on the ground, we presume, of Dr. FRANKLIN's celebrated maxim, that what we do not want and have no use for is a dear purchase however small the price paid for it.

We notice that on the announcement of the proposed cession, the minds of people immediately commence inquiring for the reasons influencing Russia to part with its American possessions, and plenty of them have been found or imagined. It might be as sensible to inquire, why should the United States be the purchaser of this remote corner of the continent? And we should not be surprised if, after some facetiousness and laughter on the subject of our Esquimaux fellow-citizens and iceberg products for the Southern market, more business like consideration should find the country worth looking at, especially in connection with our already extensive and valuable territory on the Pacific. Its climate is certainly far from tropical, and it is not likely to be favorable for the production oranges or cotton. But its fur trade and fisheries, its timber, and its possible mineral deposits may make it a good thing to have, when we get our railroad to Puget's Sound, and our vast commerce covering the Pacific. We may have a St. Petersburgh or, at least, a Quebec in those cold regions yet. The winters are not more rigorous than in the localities of the cities named.

It was probably wise to defer action on the treaty in the Senate, till time was taken for a fair consideration of the case. But we hope it will not be dismissed on account of distance, or because witlings raise a laugh about the white bears and walruses.

AN EFFICIENT MAYOR.—Baron Hausmann, Prefect—or, as we should say, Mayor—of Paris, is a man of remarkable energy, enterprise and resolution. He has done more in seconding the Emperor's plan of renovating and regulating the French Capital, than was accomplished by all his predecessors put together. He is prompt and decisive in action and is never at a loss for expedients. The other day, for instance, he heard that the butchers of Paris were going to raise the price of meat to an exorbitant figure. He sent for the Syndic of that trade, and remonstrated with him to no avail, whereupon he announced his intention to open city butcheries during the Exhibition and compete with the greedy masters. It will be an unprofitable business to the City Treasury; but it must be done in order to prevent dissatisfaction, if not riots. Again, the workmen on the Exposition building struck for higher wages. Hausmann brought them to terms by telling them that they would import craftsmen from Germany and England, if they would not return immediately to their work. The threat had the desired effect. The Baron is evidently the right man in the right place.

A REPUBLICAN PAPER IN NEW ORLEANS.—We notice with pleasure the prospectus of a new daily and weekly Republican paper, to be published in New Orleans, by S. L. Brown & Co. While it is proposed to make this a political organ of the Republican party, and to urge the principles of reconstruction which have been so emphatically indorsed by the party, the projectors of this paper seem to recognize something in journalism more important than partisanship—the cause of education, morality and religion among the people of Louisiana. Gen. Brown was, for a considerable time, connected with the Quartermaster-General's department at Washington, and, while there, showed his interest in the cause of education and religion by the superintendence of a Sabbath school among the freedmen, which was pronounced by Gen. Howard among the very best in all the South.

NAPOLEON'S MANAGER.—The Emperor seems to have made an unusually fortunate hit when he made M. Rouher his virtual premier and right-hand man. This exceedingly able minister unites with a great deal of Bismark's strength and determination the easy virtue and pliant manners of Lord Palmerston. He can be firm and even imperious when necessity demands, but five minutes after will find him pleasantly throwing dust in the eyes of the Senate, and restoring a condition of good feeling that even his worst antagonists of the Opposition find it impossible to disturb. The easy but effective way in which he manages and defends the policy of his government shows the very perfection of insight into human character and Parliamentary tact.

THE VETO PERIOD.—The veto power was probably never exercised so freely as it has been during the last year and a half or two years. The example of the President seems to have been contagious, and some of the Governors and Mayors have taken it in a very violent form. Some vetoes are no doubt wise and beneficial, and should be commended. Of this kind are two just sent in by Mayor Hoffman, of New York, to the corrupt Common Council of that city. They had passed one resolution providing expensive badges and staves of office for themselves and another to pay two thousand dollars for a file of the *Herald*. Both were palpable and scandalous jobs, and the respectable tax paying portion of the community are lauding the Mayor for doing what he can to kill them.

A WELL DESERVED promotion by brevet has been made by the President and confirmed by the Senate, in the case of Lieut. Charles Davis. We knew Lieut. Davis well, as a brave officer and worthy gentleman, who had command of a company, Co. D., in the Tenth Pennsylvania Reserves, during nearly all of the last year of his time of service. At Spottsylvania, where his company suffered severely, Lieut. Davis was captured by the enemy, but was retaken by our cavalry when near Richmond, and participated subsequently in the fights prior to Cold Harbor, when the Reserves were discharged by expiration of term of enlistment. Since returning to the State Lieut. Davis has been in the civil engineering service in the construction of the Western Pennsylvania Railroad, of the division of which next the city he had charge.

EVADING PROHIBITION.—The liquor sellers and drinkers of Boston have broken out into open rebellion against the decree shutting down on beer and cider. They could stand the deprivation of whisky, but contrabanding cider was the last feather that broke the back of their patience. Most of the saloons which were closed have been opened again, and are doing a thriving business. Great numbers of drinking clubs have also been formed, and the constables are powerless to stop the consumption, which is greater now than ever. A favorite expedient, while the embargo was enforced, was the consumption of mince pies thoroughly saturated with brandy. Two pies were equivalent to a mild drunk.

VERY LITTLE MOVING.—The indications this year are that there will be very little moving in New York on the first of May—the day when changes of residence are usually made in the metropolis. As there are no houses and but few parts of houses to let, tenants have no alternative but to stay where they are, and submit to such increase of rent as landlords or real estate agents may please to put upon them. They prefer to bear the ills they have than fly to others that they know not of. It is said a good many people talk seriously of camping out somewhere under canvass during the summer.

WISE PRECAUTIONS.—Already they are taking measures in St. Louis to defend themselves against a possible attack of the cholera. The police are instructed to visit and inspect private residences and compel the occupants to cleanse them thoroughly. The streets are to be purified and every species of known nuisance abated. According to all accounts the authorities there are acting with great vigor. We suppose our authorities will wait for the cholera to actually come before any efforts are made in the same direction here.

AN interesting item of news—highly suggestive in itself—is printed in the San Francisco papers. An order was received from Japan for $10,000 worth of leather to be used for military accouterments, which was filled by the firt steamer, and by this time has been made use of in Japan.

THE largest paper mill in the world is about to go into operation at Greenville, Connecticut. It will turn out 35,000 pounds of printing paper per day, and is expected to produce a decline in price.

The Fruit Prospect.

Although we have been favored with occasional glimpses of sunshine, April was ushered in with March weather. A protracted winter has left the soil cold and saturated with icy water. Unless in exposed, well drained situations the ground is still unfit for tillage. The backwardness of vegetation is remarkable. Even the vigorous Rock Maple has not enlivened the wood with its scarlet buds or the gay Forsythia or Spiera Prunifolia expanded their blossoms. The usual labor of the farmer and gardener for March is now added to the necessary work of this month. Oats, barley and grass seeds should be sown at once, as the season most suitable is rapidly passing away. Those who cultivate vegetables for market or home use ought to confine their selections to the earliest varieties, viz: Daniel O'Rourke peas, French Winningstadt cabbage, Bassano beet, early tennis ball lettuce, Key's prolific tomato, early French horn carrot, Covent garden radish, and early Goodrich potatoes.

Meanwhile we may pleasantly congratulate ourselves upon the cheering promise of an abundance of fruits. The trees were prepared in the fall by cold rains and a low temperature for the severity of the winter. Protection to the roots and the collar of the plants was long afforded by the continuous snows. Through this influence we find the vines and young plants unusually firm in the soil. The apple crop will probably be light, but peaches, cherries, plums, pears, grapes, strawberries and currants appear safe, and are covered with finely developed fruit buds. Favorable reports have been received from many sections of Ohio, Illinois, Iowa, Western New York, Delaware, New Jersey and Pennsylvania.

We examined yesterday morning young vines of Delaware, Iona, Isabella and Adirondac—varieties of grapes which have required protection heretofore. The wood was fresh and green while the buds were uninjured up to the snow line. Strawberry plants which were slightly shaded from the sun—*not frost*—look fine. The Agriculturist, Jocunda, Fillmore and Wilson are expanding immense crowns, and will doubtless yield us a splendid crop. Prompt and active precautions should be taken to check the ravages of insects. Syringe or wash the grape vines, especially on trellis, with a solution of sulphur, tobacco and vinegar. This liquid may be advantageously applied to the trunks and main branches of the trees.

Where convenient, slant the tender varieties of grapes against board fences, buildings, &c. The warmth and protection from excessive moisture afforded by this slight protection will in the most unfavorable season mature such grapes as the Diana, Union Village, Adirondac, Isabella, Iona and Anna. Where these sorts are already growing in the open vinyard, the trellis should be coped with boards on the top, say twenty inches to two feet in width. Then mulch the ground as far as the roots extend with straw or litter. We believe these simple advantages will prevent or check the mildew. The Rose Giant of Battles has always been exceedingly sensitive to this disease, yet we have effectually prevented its attacks by a heavy mulching of old straw.

No garden or collection of fruits is complete without the finer varieties of currants and gooseberries. These plants love a shady nook,—not under the over hanging branches of trees, but sheltered from the wind and direct rays of the July and August suns. The white grape—cherry and Versailles—are the most desirable for the table.

The following named English varieties of gooseberries produce large and fine flavored fruit, viz: Crown Bob, Forget-me-not, Ironmonger, White Smith, Red Champion, Emperor.

SATAN REBUKING SIN.—That pure and virtuous representative of incorruptible journalism and the highly moral classes, which is conducted by Mr. James Gordon Bennett, preaches a long homily on the "Immorality of Politicians," taking for its text the nomination of Mr. P. T. Barnum as a candidate for Congress in Connecticut. It congratulates Connecticut on its rejection of "a showman and self-proclaimed humbug whose perception of right and wrong was so obtuse that he gloried in his shame, justifying deceit and adopting the vile maxim that the end sanctifies the means." It should be remembered in estimating the value of this excellent article that the establishment of Mr. Barnum "does not advertise in the New York *Herald!*"

MISHLER'S HERB BITTERS.

THE GREAT HOUSEHOLD REMEDY.

Stimulates the Torpid Liver.
Invigorates the Kidneys,
Strengthens the whole System.

Capt. Duff, father of Capt. Edward Duff, of East Liberty, says: For many years I have been afflicted with Indigestion and Dyspepsia in their worst forms. I was induced to try Mishler's Herb Bitters. The use of but a small quantity of it effected a radical cure in my case.

The above certificate is reliable, and one of the many we are daily receiving.

Sold Wholesale and Retail by
McCLARRAN & McKENNAN, Druggists,
85 Market st., corner Diamond, near Fifth.
Depot for Rev. E. A. Wilson's Consumptive Remedy

WANT SUPPLIED.

London Ale, Bottled Ales, London Porter, Brown Stout. To get genuine imported London Ale, Porter or Brown Stout, has been almost an impossibility in this city, notwithstanding that there are few tonics more suitable for weakly persons and invalids. The want has at length been supplied. A large assortment of the finest brands, comprising Barclay & Perkins' London Stout, Bass & Co.'s Pale Ale, Campbell's Scotch Ale, etc., just received at JOS. FLEMING'S Drug Store, No. 84 Market street, and is sold by the case or single bottle, at the lowest rates. Also, a complete stock of the finest Liquors for medicinal purposes, and Campbell's Sparkling Ale, the finest article in use. Remember the place,

JOSEPH FLEMING'S
DRUG AND PATENT MEDICINE DEPOT,
No. 84 Market street.

GREAT BARGAINS IN

CLOTHING.

no12 30 FIFTH STREET.

Anticipated Overflow in Louisiana.

The New Orleans *Price Current* says "it is now generally apprehended that our planting interest is again to suffer ruinous disasters from the overflow. Not only the cotton lands in the bottoms above Vicksburg, but the whole fertile district on the right bank of the river, including large portions of the parishes of St. James, St. John the Captist, St. Charles, Plaquemines and Lafourche seem destined to be submerged. The result must be most serious, not only with regard to its effect in reducing the crops and in the losses it must occasion to both Northern and Southern men who have embarked their capital in planting, but also to the suffering it may cause among the destitute freedmen."

BAREFACED FRAUD.—Some of the frauds perpetrated in the New York Custom House seem to have been characterized more by audacity than ingenuity. For example, it is stated that seven pay rolls of the clerks and others employed in the Custom House were recently abstracted by some one connected with the establishment, and, being altered to suit the present month, were presented one after another to the auditor and cashed.

NEW ADVERTISEMENTS.

BEWARE OF
Imposition and Humbug.

FROM the steward of the steamboat Dubuque, Mr. John Lousson: This is to certify that I have been troubled for many years with liver complaint, dyspepsia, costiveness, debility, &c. I was recommended to try the Indian Herb Doctor; I did so, and I am happy to say he has cured me.
JOHN LOUSSON.
The Doctor's office is No. 194 Liberty street.

No such person as John Lousson is now or ever has been employed as Steward or steamer Dubuque, as Steward or in any other capacity.
J. W. PARKER,
Master Steamer Dubuque.

BARNEY'S
PATENT SASH.

Advantages Claimed.

1st. NEATNESS—Both Sash appearing as one.
2d. CLEANLINESS—A close fitting rabbit excludes soot and dust.
3d. COMFORT—Air drafts are also excluded, and rattling prevented.
4th. SAFETY—Allowing of the simplest and most effective application of sash bolts.
5th. ECONOMY—Any window can be speedily altered at trifling cost.

By an ingenious method, though the upper and lower sash are flush, one immediately over the other, and rabbitted, yet when not closed, they pass each other as usual.

NOTICE—TO THE BONDHOLDERS OF THE ERIE CANAL COMPANY.—By an act approved March 15th, 1867, the Erie Canal Company is authorized to enlarge their canal to such size as they may deem expedient.

The Act authorizes the increase of the capital stock to $1,500,000, and authorizes the Company to receive in payment for subscriptions to stock any bonds, judgments or other indebtedness of the company. The act further provides that "When the present indebtedness of the company or three-fourths of the same shall have been converted into capital stock, the said company is hereby authorized to execute a mortgage of the said canal, its rights, privileges and franchises to their trustees, and issue coupon or other bonds to the amount of one million of dollars, bearing seven per centum interest per annum and not running over forty years, and secured by the mortgage aforesaid, to be expended by the said trustees under the direction of the Board of Directors in the enlargement of the said canal, and with power to sell said bonds at such prices as the Directors may deem expedient."

The company proposes to enlarge the canal to pass boats of from 200 to 250 tons burden, and as there can be little doubt of the canal, when enlarged, paying the interest on its present debt and stock, in addition to the interest on the new bonds, it is hoped the Bondholders will promptly convert their bonds into stock, to enable the company to proceed at once to make arrangements for enlarging. The stock books of the company will be open for the conversion of the present bonds into stock, on and after the FIRST DAY OF MAY, 1867.

By order of the Board.
A. H. CAUGHEY, Secretary.

COUNTY TREASURER'S OFFICE,
Pittsburgh, April 1st, 1867.

IN PURSUANCE OF THE TWENTY-FIRST SECTION of an act relating to Allegheny County, approved the 1st day of May, 1861, and of the amendment to said section, approved the 30th day of March, 1866, I, DAVID AIKEN, Jr., Treasurer of said County, hereby give notice that the Duplicates of the several Wards, Boroughs and Townships, will be open and I will be prepared to receive the County, State, Poor and Bounty Taxes, for 1867, on and after the FIRST DAY OF MAY, 1867. Said Taxes can be paid at the Treasurer's Office until the 1st day of August with a deduction of five per cent. discount for prompt payment to any person paying the whole amount of their taxes. There will be no deduction allowed on taxes paid during the month of August. There will be ten per cent. added to all taxes remaining unpaid on the first day of September.

NOTICE.
TO ALL WHOM IT MAY CONCERN.

AUCTION—NO. 110 SMITHFIELD STREET, OPPOSITE CUSTOM HOUSE.—TODAY, at 10 A. M. and 2 P. M., large positive trade sale of Boots, Shoes, &c., Ladies' and Gent's Straw Ware, 50 dozen Shakers' Hosiery, Misses' Turbans, Underware, and 500 dozen Boys' and Gent's Fancy Felt Hats, assorted sizes and latest styles.

The special attention of dealers is called to these sales. Dry Goods, Boots, Shoes, &c., at private sale.

J. W. BREEN & CO., Auctioneers.

MANUFACTURING SITES
AT AUCTION.

That VALUABLE LOT OF GROUND, formerly occupied by Messrs. Guthrie & Sill, as a Barrel Factory, will be sold at Auction by Smithson, Palmer & Co., on

Saturday, April 13th, at 10 A. M.,
ON THE PREMISES.

This Property is situated in Pitt township, foot of Taylor street, (opposite Park, McCurdy & Co.'s Copper Works, containing about 1⅛ acres, with right to fill and make as much more ground. This property has a front of 240 feet on the Allegheny river and about 260 feet on Taylor street (a 50 foot street), and very near the Allegheny Valley Rail road. In addition to the many advantages this lot possesses it is in contemplation to erect a bridge from the foot of this street across the river, to connect with Herr's Island. For manufacturing purposes this property has no equal. Terms easy. For particulars inquire of

The Daily Commercial

GENERAL INTELLIGENCE.

The banking house of Parvis & Co., Baltimore, has suspended, but will pay a large percentage. The failure of a house in New York for which it was indorser, is the alleged cause.

Suits have been commenced in Cincinnati for "little bills" contracted when the President was "swinging round the circle" in that city. There are several such legacies scattered all along the route.

We learn that straw suitable for paper making cannot be produced in quantities sufficient to supply the paper mills, without much difficulty. So marked is the scarcity that clean wheat straw is selling for more than twenty dollars per ton. Farmers who have stacks of wheat or rye straw in good order, should be aware that those stacks are as good as gold mines.—*Cincinnati Commercial.*

The annual production of diamonds is estimated at $4,400,000.

The city of Newark, New Jersey, contains over twenty-eight thousand Germans. It has two German daily papers—the *Freie Zeitung* and *Volksman*—and numberless lager beer saloons.

Dr. M. B. Renslow has made a microscopic examination of several hams, and has found in one of them encysted trichinæ, as numerous as 48,600 in a cubic inch. In a fragment of muscle from the body of the late Miss Ida Hall, he found them as numerous as 113,400 to the cubic inch.

An ear ring has been invented by an ingenious New England jeweller, which obviates the necessity of piercing the ear. The ordinary hoop is divided in the center and acts as a spring on the lobe of the ear, being adjusted by a screw.

Thirty-eight years ago an Indian woman rode on horseback from Los Angelos to Santa Barbara, using a piece of grape vine as a switch. On reaching her destination she stuck her switch into the ground. It took root, and sixty barrels of wine were made last season from its fruit.

A vigorous campaign for manhood and womanhood suffrage is to be waged in Kansas before the next election.

The most wonderful echo in the world is at Austin, Nevada. The guns which were fired there on the morning of Washington's birthday did not cease to reverberate till eight o'clock in the evening.

Burnt cork is to have its triumph in Paris. An adventurous Englishman announces that he is going to import "Christy's minstrels" from London, to delight the Parisians at the Salle Valentino, which is now a notorious rendezvous of the demi-monde.

The Lorain (Ohio) county *News* says that "the young ladies of this place walk on their tip-toes, and can't help it, as the waterfalls on the top of their heads draw up their back hair so tightly that they can't put their heels down squarely without great pain."

A well-known banking house on Wall street, New York, has been busy for some days past, paying the annual interest on the Roman loan, to subscribers here. The total amount subscribed to the loan up to the 1st of March was about $2,300,000. Of this amount Louisiana contributed up to the 25th of January $129,025; New York, $106,000; Philadelphia less than $18,000.

The French Emperor has provided, at the public expense, for bringing delegations of the workingmen from all portions of France to see the Exposition. It is also announced that an infirmary has been erected in the immediate vicinity of the Champ de Mars, for the use of any workmen who may meet with an accident or fall sick during their visit. They will be taken care of, and provided with everything health may require, without any expense on their part.

Numerous expedients are reported from Massachusetts to get round the prohibitory liquor law, which is now being enforced with rigor in that State. The latest expedient is the sale of mince pies with a large quantity of brandy in them, or, as a Boston paper expresses it, "about one drunk to each mince pie." These are known as "anti-prohibition pies," and are chiefly sold in the highly exemplary and moral town of Boston.

The increase of celibacy in France, and especially in Paris, says the New York *Post's* Paris correspondent, is still a subject of discussion. The government which wants soldiers, the manufacturers who want hands, the farmers who want laborers, and last, but not least, the women who want husbands, ask everybody, ask each other, ask in perplexity and consternation: "Why don't the men marry?" Pere Hyacinth preaches against celibacy at Notre Dame, the newspapers preach against it at the street corners, yet, as one of them despairingly remarks, in an hour's walk from the Madeline to the Bastile, one may now meet at least a hundred thousand bachelors.

PERSONAL.

—A regiment of mounted rifles will soon be organized in Montana, under the immediate auspices and encouragement of Gen. Meagher, to be known as the Mountain Mounted Rifles. The regiment will be thoroughly organized and equipped.

—Miss Ida Lewis, daughter of the lighthouse keeper at Lime Rock, off Newport, R. I., saved a man from freezing to death recently. This is the fifth life she has saved during the past few months.

—Dr. Cumming, of "The Great Tribulation," and other doleful theological works, was lately black-balled at the Athenæum Club in London, where he was up for election, by a very large majority of its members.

—The Worcester *Spy* says that it is not true that John B. Gough has received an offer of $1,500 a week for a year's lecture course in London.

—The Springfield (Mass.) *Republican* says: "Among Martin Van Buren's papers was found a voluminous autobiography, but breaking off just before the beginning of his Presidential term, and so wanting its best value for the world.

—Edward Heath, the new Mayor of New Orleans, by virtue of Gen. Sheridan's appointment, is a native of Litchfield, Mass., and has lived at New Orleans 25 years.

—Another American sensation announced for the Paris exhibition period is the advent of Mr. Sothern in his famous role of Dundreary. This will be sure to succeed, because it is the caricature of an Englishman.

—The telegraph match between P. H. Burns, the champion operator of New England and New York, and Mr. P. Bleakney, of Pittsburgh, has been postponed for the present. Mr. Burns has expressed his willingness to make a match with any other operator in the United States for any amount less than $300, one-half of the money th be donated to some charitable institution; the number of words to be sent not to exceed five hundred.

—The newest feature of fashionable gossip dealt in some of the weekly papers, is a detailed description of the ladies' street dresses, mentioning the wearers by name. This is an experiment which only the Jenkinses of Paris have been bold enough to venture upon.

—Mr. John Stewart Mill, it is reported from London, will go into the English Liberal Cabinet, in case the present Ministry is defeated in Parliament. Mr. Mill will be offered the Secretaryship of State for India. He spent the greater part of his life in the office of the East India Company before the control of the East was transferred to the British Government.

—Count Bismarck recently presented a faithful but poor secretary with a portfolio bound like a book, in which were deposited five thousand thalers. On meeting his secretary next day, the count asked him if he had perused the volume. "Yes, your highness," said the secretary, "and I am so captivated by its contents that I am waiting the appearance of the second volume with feelings of the greatest interest." The count smiled, but said nothing. A few days afterward the secretary received a second portfolio, bound and filled like the first, and on the title-page of which was the sentence; "This work is complete in two volumes."

SPECIAL NOTICE.

☞HOLLOWAY'S PILLS AND OINTMENT—DROPSY—The action of these remedies on the blood, checks the too rapid effusion of the watery humors into the absorbents, and by equalizing the flow of the secretions, renders the disease comparatively inactive, the ointment penetrating through the pores of the skin, drains by evaporation the *serum* collected in the cellular tissue and ultimately performs a radical cure. The Pills purify the blood and strengthen the digestive organs. Sold by all Druggists.

☞METCALFE'S GREAT RHEUMATIC REMEDY is the most wonderful remedy ever brought before the public. A gentleman of this city who had lost the use of his limbs, and had used crutches for over six months, has been completely cured by one bottle. Tell your afflicted friends to try it. JOSEPH FLEMING, Agent, 84 Market street.

PROPOSALS.

PROPOSALS FOR IRON.

The Hardaway Bolt, Spike and Rivet Manufacturing Company will receive proposals at their office in Paterson, New Jersey, for

FOUR HUNDRED TONS OF IRON,

Assorted sizes, suitable for Railroad Spikes, Bolts and Boiler Rivets. POSTOFFICE BOX 320.

PROPOSALS. — PENNSYLVANIA AGRICULTURAL LAND SCRIP FOR SALE.—The Board of Commissioners now offer for sale 520,000 acres of Agricultural Collage Land Scrip, being the balance of the Scrip granted to the Commonwealth of Pennsylvania for the endowment of Agricultural Colleges in this State.

Proposals for the purchase of this Land Scrip, addressed to "The Board of Commissioners of Agricultural Land Scrip," will be received at the Surveyor General's office, at Harrisburg, until 12 o'clock, M., on Wednesday, April 10, 1867.

This land may be located in any State or Territory, by the holders of the scrip, upon any of the unappropriated lands (except mineral lands) of the United States, which may be subject to sale at private entry. Each piece of scrip represents a quarter section of one hundred and sixty acres, is issued in blank, and will be transferable, without indorsement or formal assignment. The blank need not be filled until the scrip is presented for location and entry, when the party holding it can fill the blank and enter the land in his own name. Bids must be made as per acre, and no bids will be received for less than one quarter section.

The Scrip will be issued immediately on the payment of the money to the Surveyor General. On all bids for a less quantity than 40,000 acres, one-third of the purchase money must be paid within ten days, and the remaining two-thirds within thirty days after notification of the acceptance of the bid or bids by the Board of Commissioners.

JACOB M. CAMPBELL, Surveyor General.
For the Board of Commissioners.
Harrisburg, February 27, 1867.

NOTICE IN ADMIRALTY.

UNITED STATES OF AMERICA, WESTERN DISTRICT OF PENNSYLVANIA.—Whereas, a libel has been filed in the District Court of the United States for the Western District of Pennsylvania, on the 25th day of March, A. D. 1867, by P. SHROVES & COMPANY, against the steamboat "Forest City," her tackel, apparel and furniture, and praying process against said steamboat, and that the said steamboat, her tackel, apparel and furniture, may be condemned and sold.

Now, therefore, in pursuance of the monition under seal of the said Court, to me directed, I do hereby give public notice to all persons claiming the said steamboat, her tackel, apparel and furniture, or in any manner interested therein, that they be and appear before the said District Court to be held at the City of Pittsburgh for the said District, on TUESDAY, the 9th day of April, 1867, at 11 o'clock in the forenoon of that day, then and there to interpose their claims and to make their allegation in that behalf.

Dated this 25th day of March, A. D., 1867.

THOS. A. ROWLEY,
U. S. Marshal Western District, Pa.

CITY MATTERS.

THE SCHOOLS.—The public schools in this vicinity will reopen on Wednesday next.

BEING CURBED—Workmen are engaged resetting the curbing on River avenue, Allegheny.

LUMBER ARRIVING.—A large number of lumber rafts arrived in this city yesterday from the upper counties.

EMIGRATING.—Some forty emigrants from South Carolina passed through the city yesterday on their way to Kansas.

GOING TO ROME.—Rt. Rev. M. Domenec, Bishop of the Catholic Diocese of Pittsburgh, in obedience to an invitation from the Pope, will depart for Rome about the middle of May next.

APPOINTED NOTARY PUBLIC.—Eb. Williams, Jr., Esq., of this city, has received the appointment of Notary Public at the hands of Governor Geary, and has opened an office at Alderman Strain's, No. 114 Fifth street.

A VALISE STOLEN.—Some person entered Alderman Donaldson's office, on Penn street, yesterday, during his absence, and stole a valise, containing about forty dollars' worth of clothing, belonging to a colored man named Gerard Galway.

NEW STEAMER.—The Eagle Steam Fire Engine Company design having a new steamer. The company intend building the new engine themselves. The present steamer was built by its own members, and has been in service seven years.

STEAMBOAT TELEGRAPH FOR SALE.—By reference to advertisement in our columns it will be seen that this staunch vessel, now lying at Brownsville, will be sold at a bargain by the present owners. She is in complete running order.

THE DINSMORE MURDER—FOGLER'S DEATH WARRANT SIGNED.—Governor Geary has signed the death warrant of Robert Fogler, convicted of the murder of Robert W. Dinsmore, in Washington county, on the 4th of December last, and has set Wednesday, May 15th, next, as the day of execution.

SEVERELY INJURED.—Yesterday morning a man named John Hammond, employed at the Eliza Furnace, on the Pittsburgh and Connellsville Railroad, was seriously injured by being caught between a wall and a car. His collar bone was broken in two places, and three of his ribs fractured. He was also injured internally. Dr. James A. Herron, of Smithfield street, was sent for and rendered the unfortunate man all the aid in his power.

MARRIAGE IN JAIL.—A marriage ceremony took place in jail yesterday. A man named John Noonan was committed to jail on Thursday, by Alderman Nicholson, to await trial on a charge of fornication and bastardy, prefered by a young woman named Mary Dunnovan. The case was happily terminated yesterday, by the parties being joined in wedlock. The ceremony was performed in jail by 'Squire Nicholson, the committing magistrate. The husband was accordingly released from imprisonment.

DEAD BODY FOUND.—Yesterday morning about eleven o'clock, the dead body of a female was found floating in the Monongahela river, near Port Perry. The body was brought to shore by a watchman employed by the Connelsville Railroad Company, and the Coroner summoned. The body proved to be that of Mrs. Campbell, who was drowned in the Youghiogheny river some weeks since, while she was endeavoring to secure a flat which had broken loose from its moorings. A verdict of "accidental death" was rendered.

CITY MORTALITY.—The number of interments in the city for the week ending March 31st, 1867, as reported by Dr. A. G. McCandless, Physician of the Board of Health, was eighteen—a slight decrease from former weeks. The causes of death were as follows: Consumption, four; still born, three; inflammation of lungs, two; whooping-cough, two; old age, one; inflammation of stomach, one; tuberculosis, one; catarrh fever, one; small pox, one; edampsia, one; unknown, one. Of the above, seven were adults, and eleven children. Males, ten; females, eight. White, sixteen; colored, two.

IT has been remarked that the discoverer of an important medical truth is generally regarded by cotemporary medical men, as an enemy, "because they cannot admit him to be right without confessing that they are wrong." Dr. Husband's letter, published in another column, is a brave and candid exception to this rule. He quotes several cases of consumption, in advanced stages, which he carefully observed, treated by Dr. Robert Hunter, on the principle of direct medication of the lungs, inaugurated by Dr. Hunter, and in each case the result was a complete triumph of Dr. Hunter's skill and system of treatment. It is always gratifying to record such items, alike honorable to the indorsed and indorser. Dr. Robert Hunter is still among us, and may be consulted daily at the Merchant's Hotel.

THE LATE ACCIDENT ON THE PANHANDLE RAILROAD.—As there seems to be a disposition to attach some blame to Daniel P. Tait, engineer on the accommodation train of the Pittsburgh, Columbus and Cincinnati road, in connection with the late collision at Hanlin's station, in which J. H. Killgore was killed, it is proper to state that the Coroner's jury by their verdict acquit Mr. Tait of all blame. It is further stated that the passengers of the express and accommodation trains united in adopting a resolution of thanks to Mr. Tait "for his timely exertions in checking his engine, thereby saving the lives of many passengers on the express train." Mr. Tait is a careful and experienced engineer, and was in no wise responsible for the accident, as is evident from the verdict of the Coroner's jury.

PROBABLE DUEL.—It was matter of current conversation around town yesterday afternoon, that a duel was on the *tapis*, to come off at an early hour this morning, between a popular actor belonging to the Opera House Company, and a well known merchant of the city, now retired from business. The feeling between the combatants is said to be so bitter as to lead to the belief that the affair cannot possibly end without bloodshed. This supposition is sustained by our knowledge of the fact that Dr. McLain, a distinguished New York surgeon, has been requested by one of the parties to attend him on the—possibly—fatal field. This tragic episode in the usually matter of fact life of Pittsburgh, will most likely be enacted in the neighborhood of Troy Hill. We trust the police of Allegheny are posted in the matter and will be on the alert.

OUR NATIVE ARTISTS.—No city in the country has more skillful artists than Pittsburgh. On previous occasions we have referred in fitting terms to the performances of well-known artists—men whose names take rank with the foremost painters of the day. Yesterday we paid a visit to the studio of Mr. J. F. Dickey, fourth story of the building occupied by Oliver McClintock & Co., Fifth street, and were no less astonished than gratified by looking upon a number of paintings that for evident manifestations of genius we have never seen excelled. Two fruit pieces, which have already found a purchaser, are equal to anything of the kind we have ever seen. The luscious qualities of the grapes, peaches, apples, &c., are depicted with such truthfulness to nature as to impel the beholder with a desire to feel and taste of them. A landscape scene on the Juniata portrays in all its beauty the attractiveness of that classic locality, and in a remarkable degree testifies to the artistic skill of its limner. Mr. Dickey, though a young man, is an ardent and enthusiastic artist. His modesty has kept him in the background thus far, but his genius will yet bring him forward as the most promising of Pittsburgh's famous artists. He deserves to be warmly encouraged.

Interesting Oil Suit in Chancery.

George C. Vincent and eight others, for the Wilson Oil Company, yesterday entered a suit in Chancery in the United States Circuit Court against the People's Petroleum Company, composed of eleven persons. From the allegations made by the complainants, it appears that the Wilson Oil Company had a capital stock of fifty thousand dollars, divided into twenty shares of twenty-five hundred dollars each. The nine complainants each owned a share in the Company, and the eleven defendants the remainder. The defendants, who are from New York, having the controlling interest of the company, held a meeting, it is alleged, and put all the stock of the Company (the land being located in Venango county) into a new company, which they organized under the style of the "People's Petroleum Company," without the consent of the other stockholders, the complainants. The testimony in the case was taken yesterday by United States Commissioner Sproul. The case was held over for the May term of the United States Circuit Court.

Female Shoplifter Apprehended.

Yesterday afternoon a woman, very genteely dressed, entered Mr. Richardson's jewelry store on Market street, and requested to be shown some gold watch chains. While inspecting the chains she slipped one into her pocket, and left without purchasing. Shortly after her departure the chain was missed, and a young lad sent to the Mayor's office to inform the police of the transaction. Mr. Nicholson, the Mayor's clerk, being at the office at the time, started in search of her, and traced her to the St. Clair Hotel, where she had engaged a carriage to carry her to the Union depot. Mr. Nicholson followed her there, and succeeded in arresting her a few moments before the departure of the train in which she had secured a seat. She was taken to the Mayor's office, and upon being searched three gold watch chains, a quantity of dry goods and a pair of new shoes were found in her possession. She stated that her name was Mrs. Thompson, was a resident of New York city, and had served a term of four years in Sing Sing for robbery. She also said that she was a sister-in-law of Daniel Noble, a well-known thief of New York. Mr. McIntosh, who is connected with Mr. Richardson's store, identified one of the chains, while the others were claimed by jewelers on Fifth street. Informations have been made against her, and she will be held for trial. Mr. Nicholson is entitled to great credit for the prompt manner in which he worked up the case and made the arrest.

[From the New York Herald.]

Letter of R. J. Husband, M. D.

JEFFERSON ST., GREEN POINT, BROOKLYN.

Sir: For some time past considerable interest has been awakened, both in and out of the profession, by the publication of a series of popular letters from the pen of Dr. Hunter, of New York, on the successful treatment of consumption by inhalation. That these letters manifest a profound acquaintance with medical science, and are written in a most attractive style, cannot for a moment be questioned; but a matter of far greater importance remained to be tested, namely, whether the application of the principle advocated by Dr. Hunter would be sustained by their success in practice.

Of late I have observed in several newspapers exacts from the letters of physicians calling on Dr. Hunter for the publication of cases. Now, the only matter of consideration is, whether the success of inhalation has been equal to the expectations raised by its announcement, or greater than the practice in common use.

I have myself personally witnessed the recovery of two cases of consumption. They had been for some time under the care of physicians of my own acquaintance, but were gradually sinking into their graves. The first of these cases (Mrs. Jonathan Crane, of Green Point, Brooklyn,) was apparently of a hopeless character, a cavity having already formed in the right lung; there was great emaciation; she was unable to walk any distance, and had all the worst symptoms which usually attend cases of phthisis in an advanced stage. Mr. Crane was induced, from the testimony which came under his observation, to put her under the care of Dr. Hunter.

I was anxious to witness the effects of Dr. Hunter's treatment by Inhalation in her case, as I knew it to be a desperate one. Soon after she began to use the inhalations I saw a marked evidence of improvement—her breathing became more free, her expectoration increased and easy, her general health daily improved, and I am too happy to be able to say that this improvement has gone on steadily, until she is now in excellent health and spirits—a result which, I have no hesitation in saying, no other treatment known to the profession could possibly have effected in her case. The other case—that of Mr. Griffin, of the same place—was very similar in its character to that of Mrs. Crane. This case I also watched closely, and the result has been equally satisfactory. As a professional man, I was induced at first to give all possible attention to Dr. Hunter's treatment, feeling a very deep interest in his published views on the subject. But I confess I was not at all prepared for the speedy, decided and unmistakable success which attended it in these two cases.

The effect on my own mind has been such that I was led at once to place under his care my own sister-in-law, Miss Wood, also a case of tubercular consumption, similar in character to Mrs. Crane's. Miss Wood has been under Dr. Hunter's treatment for about six weeks, and I am happy to say that she too is progressing toward a cure, in a manner most gratifying to myself and all her friends. After these undeniable evidence, coming under my own observation in so satisfactory manner, I cannot be silent. As a general rule, medical men have a dislike to appearing in a newspaper on any subject connected with medical practice; there are occasions, however, when it becomes a duty to lay aside these feelings and bear an honest testimony to the truth; and I am rejoiced, as a man who respects his profession, that I have it in my power to bear this ample testimony to the success of Dr. Hunter's treatment in consumption.

Yours, very truly,

R. J. HUSBAND, M. D.

JACOB SCHEID, Inn-keeper at Sharpsburg, has been troubled with dyspepsia, but is now cured by the Indian Doctor.

FROM the proprietor of the Mansion House. This gentleman has been troubled with liver complaint and dyspepsia for a number of years. The Herb Doctor has cured him.

FROM A WIDOW WOMAN.—I called on the Indian Herb Doctor some weeks ago. I was troubled with a very bad cough, pain in my breast, general debility, &c. I told the Doctor I was a widow woman. He gave me medicine, free of charge, that has benefitted me very much.

MARY MARSHALL,
No. 60 Lacock street, Allegheny.

FROM one of the Trustees of the First Methodist Church, Allegheny City: I have been troubled for five years with dyspepsia and general debility. I would recommend all who are troubled with such complaints to try the Indian Herb Doctor, of 194 Liberty street.

D. DAVIS, Allegheny.

MRS. PATTERSON, of Minersville, can now read without the aid of glasses by the use of the Indian Herb Doctor's medicine. Andrew Kidd, of McKeesport, had six scrofulous ulcers, some of them large enough to put your fist into, is now healed by the Herb Doctor. Geo. Featherstone, Franklin Iron Foundry, has been troubled with a bad cough, difficult breathing, hoarseness, dizziness in the head, debility, &c., has gained seven pounds of healthy flesh in two weeks. Mr. F. Cunningham, connected with the glass establishment in East Birmingham, has been troubled with nervous debility, and is almost cured; gained three pounds by the Indian Herb Doctor's treatment.

Thomas James, of Engine No. 296, Pennsylvania Railroad, has been cured of a bad case of scrofula.

WM. DUNN, cured of nervous debility, gained nine pounds since he placed himself under the treatment of the Indian Doctor.

The Doctor's office is No. 194 Liberty street.

SALE POSTPONED.—The valuable manufacturing site in Pitt township, opposite Park, McCurdy & Co.'s Copper Works, advertised to be sold this day has been postponed until Saturday next, April 13. Sale on premises.

T. A. MCCLELLAND, Auctioneer.

SILL & GILLESPIE, Dentists, No. 246 Penn street.

R. R. Bulger & R. R. Reeves, undertakers, No. 88 Smithfield street. tf

THE PITTSBURGH QUARTERLY MAGAZINE can be had at any of the News Depots in the city or county for 75 cents.

RISTORI.—Be sure that you call upon H. Oppenheimer & Co., No. 85 Wood street, and purchase a beautiful scarf or tie for the Ristori representations.

GODFREY & CLARK manufacture the best paper sacks in the United States for putting up flour, corn meal, &c. Call and see them. Warehouse, No. 357 Liberty street.

RISTORI THE TRAGEDIENNE.—Murdock & Putnam, No. 72 Fifth street, have received that special invoice of elegant *moire antique*, silk and satin ties and scarfs, for the Ristori representations. Every shade and color.

BLOOD! BLOOD!! BLOOD!!!—Dr. J. M. Lindsey's Blood Searcher, manufactured and sold by J. M. Fulton, Druggist, corner of Fifth and Smithfield streets, is the best blood purifier extant.

FRENCH YOKE SHIRTS.—Don't procrastinate till the very day you want a half dozen shirts, and then go into apoplectics because you can't find what you want; but go at once and leave your measure for those perfect fitting French Yoke Shirts made to order at Murdock & Putnam's, 72 Fifth street.

TARPAULINS, WAGON COVERS AND AWNINGS FOR SALE.—A small lot of large-sized Tarpaulins, Wagon Covers, Awnings and Tents, nearly new, bright and clear heavy duck, will be sold at a great deal less than half the original cost. Inquire of Robert F. Weddell, corner of Smithfield and Water streets.

HOGLE & CHAMBERS, successors to John P. Hunt & Co., have removed to their new store, No. 74 Fifth street, next to COMMERCIAL office, where they will be glad to see their old friends and customers. Their counter is always filled with the latest literature of the day. Don't forget the place, No. 74 Fifth street.

To all those afflicted with Rheumatism, Gout, Neuralgia, Asthma, Pains, Sprains, Bruises, Cuts, Burns, Bunions, &c., call for Sir Astley Cooper's Embrocation, it will give immediate relief. For sale by McClarran & McKennan, 85 Market street, Pittsburgh; Kane & Dunit, Allegheny, Pennsylvania. TMAS.

THE IRON CITY MONTHLY.—Owing to the immense labor attending the publication of the first number of the Iron City Monthly, the issue of the same will be necessarily delayed until the 8th inst., when we hope to be able to fill the numerous orders awaiting attention. Geo. W. Pittock & Co., Publishers. P. O. Box 1,406, Pittsburgh, Dispatch Building, Fifth street. See advertisement in another column.

GRAND OPENING.—Messrs. J. Benswanger & Co., No. 56 Market street, announce the grand opening of their extensive millinery and straw goods establishment to take place on Wednesday next, April 10th instant. Messrs. Benswanger & Co.'s stock is surpassingly beautiful and tempting to purchasers. Such variety and splendidly made goods have rarely, if ever, been seen in Pittsburgh. Do not fail to attend the grand opening and examine their stock. You will be well repaid for your visit. See advertisement.

THE BEST TONIC.—Caswell, Mack & Co.'s Combination of Iron, Phosphorated and Calisaya, known as Ferro—Phosphorated Elixir of Calisaya. The Iron restores color to the blood; the Phosphorus renews waste of the nerve tissue, and the Calisaya gives a natural, healthful tone to the digestive organs.

One pint contains the virtue of one ounce of Calisaya, and one teaspoonful a grain of Iron and Phosphorus.

Manufactured by Caswell, Mack & Co., New York. For sale by all druggists. s*

HEAR REASON!—STRENGTHEN THE DEFENSES!—When a garrison apprehends an attack from an outside enemy, what does it do? It STRENGTHENS THE DEFENSES. The human system at this period of the year is beleaguered by morbid influences. The atmosphere is full of them. Every change of weather lays the feeble open to their attacks. What is to be done in order to baffle these unseen, but ever active, foes? STRENGTHEN THE DEFENSES. Do you ask how? The answer is simple—the means within the reach of all: Reinforce the vital organs and the nervous system with HOSTETTER'S BITTERS. Tone the stomach, regulate the bowels, rouse the sluggish liver, cheer the spirits, enrich and purify the vital current, with HOSTETTER'S BITTERS. That's the way to STRENGTHEN THE DEFENSES, and render the capital of health impregnable. If you wish to escape billious headache, intermittent fever, indigestion, and nervous visitations—to enjoy, in all its plentitude, the blessing of "a sound mind in a sound body," use this incomparable preventive and restorative. It preserves health in the healthy, and renews it in the weak and ailing.

P. OPP. P. O. P. P.—Opposite the Postoffice, is Pittock's, where you can obtain any or all of the late Publications, Weekly, Monthly, or new Books.

P. OPP. P. O. P. P.—New Books received at Pittock's, opposite the Postoffice: Sybil's Second Love, by Julia Kavanagh; Tale of Two Cities, by Dickens (Peterson's Illustrated Diamond Ed.); Heaven and its Wonders and Hell from Things Heard and Seen, by Swedenborg; Man a of Elementary Logic, by Atwater; Open Polar Sea, by Hayes; New America, by Wm. Hepworth Dixon; Famous Americans of Recent Times, by Parton; Miss Louisa Muhlbach's Historical Novels.

P. OPP. P. O. P. P.—5,000 Stereoscopic Views at Pittock's, opposite the Postoffice. Views of all places and scenes of note and interest in the United States, England, Ireland, Scotland, France, Germany, Switzerland, Italy, Turkey, and Egypt, &c.

P. OPP. P. O. P. P.—Pittock's opposite the Postoffice, is the place where you will always find the largest assortment in the city of Pocket Books, Purses, Wallets, Portemonnaies, Bill, Collection, Letter and Card Books. Also, Gold Pens and Pencils, Pocket Knives, and a general variety of Stationery Goods.

A RARE SPOT FOR SMOKERS.—It gratifies us to be able to direct our readers to a first-class establishment where they may invest their money with the satisfactory assurance that they will get an adequate return, not only in quantity but in *quality*. Tobacco chewers and smokers have all experienced the difficulty of procuring a good genuine article. Mr. S. C. Herron, No. 184 Wood street, (junction of Liberty and Wood streets,) has the finest stock of Tobacco, Segars, Snuffs, Pipes, &c., in the city. This may seem to be a hazardous thing to say, but if our readers will take the trouble to call there and see for themselves, they will find that we would be even more truthful if we were to say his stock comprises the *best brands ever offered in Pittsburgh*. No retail dealer ever faced the public with a more choice and desirable stock. His wholesale department presents the same attractive features, which country dealers and others will do well to bear in mind.

A CHEAP GROCERY AND A GOOD ONE AT LAST.—Messrs. Love & Kirk, No. 97 Ohio street, Allegheny, have just opened the cheapest and best retail grocery store that can be found in either of the two cities. Our readers will positively find it to their advantage to patronize this concern. The stock is large, new and fresh. In Teas and Spices they defy competition. In Butters they possess great advantages for the benefit of their customers, being in direct communication, daily, with the country. Fresh, sweet Butter always on hand. In New Orleans Sugars, Molasses and Sorghum purchasers can depend upon procuring the *bona fide* article. Groceries of every description at the lowest prices to be found anywhere. Messrs. Love & Kirk are experienced men and know exactly where and what to buy for their trade. Their motto is to give perfect satisfaction to every customer, great or small, and the rush to their new and beautiful store proves that this policy will succeed.

"THE HAYMAKERS."—The grand cantata, entitled the "Haymakers," by Root, which was given with such unquestionable *eclat* at the Academy of Music on Thursday night, has given rise to the question: "Where did those grand pianos come from that were used on the occasion?" This is a proper inquiry, for the music was superb, and everybody present was perfectly enchanted with it. We will undertake to answer this general interrogation which we hear coming from every direction. These splendid instruments were kindly loaned by Messrs. Hammer & Toerge, No. 50 Seventh street, and were manufactured by the celebrated Central Piano Company. Messrs. H. & T. are the sole agents for the sale of this piano, which, without exception, is the best yet introduced. Every feature of a first-class instrument of this character is secured in one of these pianos. The judgment of the most renowned musicians of the present day has been given in their favor, and the unprecedented sale which they are enjoying is a convincing proof that they are destined to supercede those of all other make.

JOY TO THE WORLD.—For generations the public has felt the absolute necessity of an invigorating, health restoring *herb bitters*, and it is only a short time ago, that *such a medicine* was introduced. Attention has been invited from time to time to what are called "bitters," whose asserted virtues, if they were *bona fide*, would rival the miracles of old, as we read of them in sacred print. But the present is too enlightened an age, and science has been carried forward too far in its triumphant and wonderful march to suppose that any such revolution in the medicinal world is attainable. But by the aid of that same science, however, Dr. Mishler has discovered the secret of compounding certain herbs, and producing the universally celebrated Mishler's Herb Bitters, whose health restorative powers are pronounced to be absolutely wonderful by the most learned and skillful medical practitioners in the land, whose opinion of its value is at once obvious when we say that they are daily recommending it in their practice. Mishler's Herb Bitters is produced purely from herbs, and combines in itself greater invigorating power to the human system than any other preparation ever before introduced to the public notice. Its timely use has been the means of saving thousands of valuable lives, of relieving a vast amount of suffering, and wherever used has proved itself in reality a boon to suffering humanity. *As a tonic* it has no rival, and it is rapidly growing into public favor in this community, where its astonishing cures have been personally witnessed by hundreds of our first citizens. Messrs. Fahnestock & Holton, No. 26 Market street, are the sole agents for its sale in this section of the country.

WHAT IS A SEWING MACHINE?—A sewing machine is designed to do sewing of all kinds, although it does not make the same kind of a stitch that a hand needle does. The sewing machines now before the public make, respectively, what are technically called a "lock-stitch," a "chain-stitch," and a "double-stitch." But there is a very material and important difference between them, and by universal consent the "lock-stitch" is the most invaluable. This stitch is made with two threads, one on each side of the cloth or fabric, and is locked tightly together in the center. Hence it is called the "lock-stitch." It cannot be pulled out or ravelled, and there is only a single line of thread on each side of the seam, which is as firm and strong as the cloth itself—in fact it weaves the fabric together. The only machine that makes this desirable seam perfectly, is the celebrated Wheeler & Wilson Sewing Machine. This machine is used by seamstresses, dress makers, tailors, manufacturers of shirts, collars, skirts, cloaks, mantillas, clothing, hats, caps, corsets, ladies' boots and shoes, linen goods, umbrellas, parasols, etc. They work equally well upon silk, linen, woolen and cotton goods, with silk, cotton or linen thread. They will seam, quilt, gather, hem, fell, cord, braid, bind and perform every species of sewing, making a beautiful and perfect stitch, alike on both sides of the article sewed. Over fifty thousand Wheeler & Wilson Sewing Machines were sold last year—being equal to the sales of all other sewing machines combined. The Western depot of the Wheeler & Wilson Sewing Machine Company is located in Pittsburgh, at No. 27 Fifth street, Messrs. William Sumner & Co., General Agents, from whom this machine can be obtained, and who warrant every machine sold by them, or their agents, for three years, and give instructions at the home of the purchaser without extra charge.

IMPORTS BY RIVER.

Pitts. Brownv. and Geneva U. S. Mail Line.

J L Moorhouse, 3 boxes merchandise, 1 bbl whisky, 10 packages household goods; S Cooper, 300 gallons stoneware; McElroy, Dickson & Co, 1 wagon, 2 horses, 2 sets harness; Hubbard & Green, 1 sk meal; Means & Coffin, 2 boxes merchandise; McCullough, Smith & Co, 2 sacks wool, 2 boxes merchandise, 1 bbl onions, 5 kgs lard; W Eckley, 3 pkgs merchandise; Wm Keller, 1 moving; Rittenhouse, 50 feet lumber; H Stamm, 1 box butter, 3 packages eggs; Mr Nieman, 1 box butter, 1 do eggs, 1 bbl do; W Hall, 3 boxes household goods; M W Rankin, 3 boxes eggs; J Flenekin, 20 head hogs; Mr Pryor, 3 horses; J W Sperow, 100 castings; R C Schmertz, 2 door castings; E Griffith, 14 empty boxes; R E Sellers & Co, 26 do do; W Dutchey, 4 boxes and 3 trunks merchandise; W H Richards, 3 cows, 2 calves, 2 kegs and 1 box butter, 1 basket do, 23 packages household goods; T Fawcett, 1 skiff; McGinnis & Co, 1 box tobacco; B L Fahnestock & Co, 37 empty boxes; D Gannon, 320 barrels apples; W Trumps, 1 moving; J Elden, 1 moving; A Bradley, 1 cook stove; S McLane, 8 calves, 3 bbls eggs, 9 hides, 1 sk furs, 1 bbl poultry, 5 jowels; D Lash, 5 packages produce.

Parkersburg.

PER STEAMER LENI LEOTI.—W J Steel & Bros, 15 bales hay; Pennsylvania Salt Manufacturing Company, 5 empty carboys; C P Markle & Co, 73 sks rags; M Myers, 3 barrels eggs, 1 box do, 1 box butter, 2 bxs chickens, 1 basket; James Collins, 100 new oil bbls; Owner, 41 bales hay; Fetzer & Armstrong, 3 barrels eggs, 1 half barrel roll butter; Myers, Hoppe & Co, 4 dozen bedsteads, 2 dozen chairs, 1 doz stools; Mrs Wagner, 25 packages household goods; Brownsville Packet, 1 box, 1 stove; I Dickey & Co, 26 pcs reaping machine; Pettit & Newlin, 48 bales hay; Jas Glenn, 61 sacks corn; John Herbert, 12 barrels apples; A Garrison & Co, 10,000 fire brick; Spencer & McKay, 5 empty ale barrels; Owner, 21 packages produce.

COR. OF FOURTH AND SMITHFIELD STS.

FINANCE AND TRADE.

FRIDAY EVENING, April 5, 1867.

Our money is yet very close, and discounts are seldom made. The great bulk of the capital of the country at all important financial points, is absorbed by investments in government securities. There is really no scarcity of money for the purchase of prime investments, but there is a general dislike with capitalists to put their money out when there is the least contingency of losing it.

In New York, according to the *Herald*, the stock market remains extremely dull and heavy, owing to the continued scarcity of money; and indications are not wanting that artificial means have been employed to aggravate the present condition of monetary affairs with a view to a further decline in railway shares. A strong "bear" combination has been at work during the last few days, their operations being based on the disturbance resulting from the making up of the quarterly returns of the national banks. It is reported that the government has been drawing upon its depositories; but the drain from this source can hardly be equal to the return flow from the interior. The balances of the country banks in New York were drawn low before the 1st of April, and as the necessity which caused their withdrawal no longer exists, it is only reasonable to look for an opposite movement to about an equal extent and the drafts of the government upon its depositories for some little time to come are likely to be met in funds already removed from this center.

The *Times* says On this point it is as well to reason a little calmly as to jump to abrupt and improbable conclusions. 1. The country bank balances which were drawn down in New York last week, cannot return at once. The recovery must be gradual. 2. The national banks have *not* been called upon to transfer heavy Government balances to the Treasury Office as reported. Transfers of this nature are going on constantly, for the convenience of the Department and its operations in New York. To-day they amounted altogether to only $800,000. 3. The suspicion of a repetition of the tricks of last December and January, of creating an artificial and forced scarcity of greenbacks, thus far amounts only to suspicion. Only a very few stock and money firms of large means are believed to be capable of dabbling in such muddy water, and although some names are freely canvassed on the street today, they are probably pointed at in this connection because known to have been capable of and actually engaged in such work some months ago.

—The quotations to-day at the New York Stock Exchange, up to noon, as received by Mr. Bryan, is as follows:

Reading	[illegible]

Ira B. McVay & Co.'s report of the prices of the public funds in the New York market to-day is as follows:

6s 1881	109
5-20s, 1862	109⅝
" 1864	107¼
" 1865, May and November	107½
5-20s, 1865, January and July	107
10-40s	97⅞
December Compounds	116
August 7-30s	106
June and July	105½
Gold	133⅜

—The *Times* notices the great decline in stocks on Thursday, as follows: The Railway market of the day was the most depressed for some time past. The sales of New York Central from 105½ down to a fraction below 103 ₩ cent., had perhaps more influence than any other, to precipitate the general decline which was felt after 1 o'clock. Next to this, the pressure to sell Rock Island for cash, and on contract, was notable because of the high character of the stock as a 10 ₩ cent. investment. Fort Wayne, Pittsburgh and Michigan Southern participated in the decline, and late in the day the Northwest stocks were also weaker by 1 ₩ cent. In the Long Room the bearish feeling was especially marked, as on frequent like occasions before, few of the sellers regular way and on three days' options, stopped to inquire into the reason of this young panic, or whether it is likely to rage for the whole three days within which they hope to cover their sales at a profit.

The whole line of the Atlantic and Great Western Railway, from the Erie terminus to Cleveland and Cincinnati, is now in the hands of a receiver—Robert B. Potter—an order of the Supreme Court of Pennsylvania, made on Saturday last, having been made to the same effect as those previously issued by the courts of New York and Ohio. The receiver is required to operate the lines, to give security in $100,000 for the faithful performance of his duties, and out of the net earnings of the line to first pay the interest upon the prior or divisional mortgages on the line, and then upon the consolidated mortgage.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, } FRIDAY EVENING, April 5, 1867. }

There is a more cheerful feeling in commercial circles, owing to the more settled condition of the weather. The country roads are getting passable again. Trade to-day was generally active in the produce and general markets. There was the usual amount of transactions in flour, which is still quite active. Most kind of groceries were in good demand. Grains were generally active.

The receipts of leading articles of produce, per river and railroad, since our last, were as follows: Flour, 1,183 bbls; apples, 173 bbls; corn, 1,866 sacks; barley, 457 sacks; wheat, 46 sacks; rye, 211 sacks; oats, 67 sacks, and butter 14 packages.

We quote as follows, which are the wholesale prices unless otherwise stated:

ASHES—We note sales of 5 tons Pearl at 12½c and 15 tons Soda Ash at 5½c ₩ lb.

APPLES—Sales were made at from $3.00 to $6.00 ₩ bbl for common to choice. Sales 12 bbls choice at $6.00; 10 bbls at $4.75; 5 bbls at $5.50, and 20 bbl common at $3.00 ₩ bbl.

BACON AND LARD—We notice sales from packers of 3,000 lbs shoulders at 10@10½c; 3,000 lbs sides at 12c; 5,000 lbs sugar cured hams at 16@16½c; 2,000 lbs canvassed sugar cured hams at 17c, and 10 tierces lard at 13½c. We notice sales of 1,200 lbs country meat at 9½c for shoulders, 14½c for hams, and 12c for clear sides; also, 50 kegs lard at 12½c ₩ lb.

MESS PORK—Sales of 15 bbls mess pork at $23.50 ₩ bbl.

CHEESE—Sales noticed of 8 bxs Goshen at 22c; 10 bxs Western Reserve at 16@17c ₩ lb, and 30 bxs Hamburg at 18c ₩ lb.

EGGS—Prices are stiffer. We notice sales of 16 bbls at 21c, and 5 bbls choice at 23c ₩ dozen.

FLOUR—Owing to the reported scarcity of wheat, flour dealers are looking for an advance in flour made of the best spring wheat to $15.00 ₩ bbl. Illinois is reported as having to go into the market for consumptive supplies, flour being now purchased in Chicago for that portion of the State which formerly gave surplus supplies. The southern portion of the State is reported far short of the demand. The same is reported of Ohio and Indiana; and, in fact, it is stated that more or less of all the States, North and South, will have to depend on Minnesota, Iowa and Northern Wisconsin for their wheat until the next harvest has been gathered. The Western portion of Pennsylvania has been for a long time in the market, for supplies to furnish, not only tradesmen, but actually, most of her farmers. The receipts in this market for the past week have been very small. At the advance prices in Chicago, only large dealers in this market are risking purchases there. The smaller ones are buying here from those who make purchases there. Good spring wheat brands are held firm at $13.25@13.50 ₩ bbl, and winter $14.50@15 ₩ bbl. We note sales of the following brands: 200 bbls Despinine's at $13.50; 150 bbls Ossage at $13.25; 75 bbls Sear's best at $13.50; 200 bbls Jenkins's Lilly at $14.00; 160 bbls Jenkins's Eureka at $14 and 100 bbls Dayton Snow Flake at $15 ₩ bbl.

GRAIN—We quote wheat nominal at $2.90 for No. 1 spring, and $2.70@2.75 for No. 2 prime, and $3.00 for red winter, ₩ bushel. The market is nearly bare of any kind.

CORN—Sales of 1,500 bushels ear corn and 1 car shelled on private terms. We quote, from first hands, at 80c ₩ bushel.

RYE—Sales were made in small lots, from store, at $1.30 ₩ bushel.

BARLEY—The general quotations are $1.10@1.15 ₩ bushel.

OATS—We quote sales, from first hands, 52@55c ₩ bushel, and from store 55@57c ₩ bushel.

HAY—We note sales of 2 lots at the Brownsville Wharf Boat, at $20@21 ₩ ton, and 6 tons at the Depot at $22 ₩ ton.

SEEDS—Sales of clover seed were made at $10@10.50. Timothy seed at $3, and flax seed at $3 ₩ bush, in small lots.

SORGHUM—We notice sales of prime at 50c ₩ gall. The demand is quite light.

LEAD—Sales of 300 pigs lead at 10½c ₩ lb, reported.

POTATOES—We quote Peachblow potatoes selling at 90c ₩ bush.

OIL BARRELS—We notice sales on the wharf of 270 oil barrels, at $2.10 ₩ barrel.

The general Hardware trade has revived considerably during the past week, and taking into consideration the extreme dullness which prevailed for a long time back, the business may be considered really active, at least more so than had been expected by the Trade. The Steel market, like the Iron, is very dull, and this is all that can be said about it, excepting announcing the fact, that our merchants and manufacturers are prepared to fill any amount of orders at the lowest market price. The Copper market is only moderately active. Prices are unchanged, and our warehouses are amply supplied with stocks to meet any demand.

In the lumber business there is considerable trade doing from the yards, at the same price quoted for some time back. The supply, in the yards is sufficient to meet all immediate demands. There has but little arrived, this season, from the pine region. The last sales we noticed in the water were: 52,500 feet of common boards at $20.00 ₩ M, and one lot of 260,000 feet at $21.50 ₩ M. Both lots, we believe, were shipped to the lower river trade. Timber is quoted as selling at 10c ₩ cubic foot.

The boot and shoe trade is very dull. There is an excellent stock in the jobbing houses of this city, and the prices are such as to induce the trade to purchase in this market in preference to others East or West. Prices remain at the quotations given in our weekly current list for some time back.

There has been no change in the Broom market; the demand is pretty active. In the wrapping paper and rag market there is always a fine trade doing. Prices are unchanged.

In the Cracker market prices are unchanged, notwithstanding the rise in flour. There is considerable doing.

There is only a moderate business doing in Foreign Fruits. The market is poorly supplied with oranges, and there is only a limited supply, as yet, of the new crop received in the Eastern markets. With the exception of oranges our dealers are well supplied with stocks of all kinds. No change in prices.

In the Glass Trade there is considerable doing in Window Glass, at former prices. There is quite a large stock of all kinds on hand, much more than the demand requires.

There is a moderate business doing in Leather and Hides. Prices remain as last quoted.

The demand for most kinds of articles, coming under the head of Manilla, Hemp, &c., is quite active. One of our manufacturers informs us that his orders are much ahead of his supply. We have no change to note, except a reduction in prices of No. 5 Flax Twine to 50c and No. 6 to 53c, of articles coming under this head.

The demand for choice qualities of Pittsburgh manufactured ales has been quite active. We notice the card prices of Carson, Darlington & Co., and Spencer & McKay, noted as old standard brands, are the same in prices which we have noticed for some time back.

There is only a moderate inquiry for soap and candles, and prices are unchanged. The stoppage of our iron mills has considerably effected the trade, as is the case in nearly all other branches of business.

The tobacco market remains as last quoted. There is some trade doing, but it is by no means active.

PITTSBURGH OIL TRADE.

OFFICE OF THE PITTSBURGH COMMERCIAL, } FRIDAY, April 6, 1867. }

BUSINESS—The market since our last has exhibited more activity. Buyers took hold more freely. The rates, however, have undergone no particular alteration. Another rise is reported from the Allegheny. The telegraph announced eight feet and rising last evening. This will enable another fleet of bulk boats to reach this market. The receipts since our last reach 16,780 barrels. The sales during the same period were 10,277 barrels. We continue to quote fair gravities at 6½@7c for bulk with the usual advance for barrels included. Among the sales were the following: 2,000 bbls bulk, seller's option, May and June delivery, 7c; 100 bbls do, 7½c; sales 3,000 bbls, and 2,000 bbls do, bulk, future delivery, the terms were withheld. We note sales of 2,000 bbls bulk, Oil City gauge, delivered here at $2.50 ₩ bbl. This sale was for refined to be delivered before the first of May. Sales 177 bbls bulk, at 6½c.

REFINED OIL—The market has been devoid of activity for some days. The demand was very limited for present or future delivery. We note sales 500 bbls bonded standard white, April delivery, Philadelphia, at 27c; other lots were under negotiation, but had not been consummated when we left the market.

PITTSBURGH DRY GOODS MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL, } FRIDAY, April 5, 1867. }

Dry Goods people are in better spirits, because spring trade has opened somewhat, and buyers have been on hand to quite a satisfactory extent during the present week. Bills are generally small, but this argues caution on the part of retailers and safety to jobbers, and the plan of frequent purchases and close, prompt settlement, will be the best thing for both buyers and sellers.

The frequent fluctuations in value make it a matter of more than usual propriety for dealers to keep their stocks in good trim, and avoid an accumulation of old goods.

We append quotations as follows—giving prices for last week and this:

MARVIN'S CRACKERS

ARE NOW CONSIDERED

Superior to any others in Market.

S. S. MARVIN,

LATE R. & J. DAVIS,

No. 91 LIBERTY STREET, foot of Fourth.

New York Finance and Trade.

Gold Closed at 132⅞.

NEW YORK, April 5—P. M.

MONEY

Opened easier, with some falling off in the demand, and continued to work in favor of borrowers to the close of the day. The demand, however, was active, but first class firms were supplied more readily at 7 per cent. The Government is selling gold, but at the same time time buying 7-30 notes to a greater extent, and the disbursements at the Sub-Treasury are liberal. The tide of currency is towards this point from the interior, and money is likely to be still easier next week.

THE GOLD MARKET

Closed up steady at 132⅞. The continued sales by the Government and anticipation of the disbursement of $24,000,000 interest next month tend to check the speculation for a rise.

GOVERNMENT SECURITIES

Firm and in demand. Registered 1881, 109@109¼; Coupons 1881, 109@109¼; 5-20's registered 1862, 107@108; 5-20 Coupons 1862, 109¼@109½; 5-20 Coupons 1864, 107¼@107½; 5-20 Coupons 1865, 107¼@108; 5-20 Coupons, January and July, 107¼@107½; 10-40's registered, 97½@98; 10-40 Coupons, 97⅞@97¾; August 7-30's 106@106½; June 7-30's, 105½@105¾.

THE RAILWAY MARKET

Opened steadier with a good demand at an advance; the features were Erie, Southern and Fort Wayne. The market fell off a little after the regular session, but rallied again before the 1 o'clock board, at which prices again improved. At the second board steadiness prevailed, but at the last open board the market was heavy and lower, especially on New York Central and Rock Island. The former was down on the report that the Governor had vetoed the increased fare bill. After call the market was quiet and steady.

CLOSING PRICES.

Wm. Heath & Co. report the following 5:30 P. M. prices: Gold, 132⅞; Canton, 45@45½; Cumberland, 30@31; Quicksilver, 31½@31½; Mariposa, 8@8½; do. preferred, 21@21½; Western Union Telegraph, 41@41¼; New York Central, 100½@100¾; Erie, 55⅝@55¾; Hudson, 137@138; Reading, 101½@101¾; Michigan Southern, 71@71¼; Pittsburgh, 74½@74¾; Toledo, 119@119½; Rock Island, 89@89½; North Western, 34@34½; preferred, 62½@62¾; Fort Wayne, 92½@92¾; Pacific Mail, 120@120¼; Atlantic, Mail, 80½.

BORDER STATE BONDS

Dull, without decided change; Missouri 95¼; Tennessee, 62½.

MISCELLANEOUS SHARES.

Steamboat, Coal and miscellaneous shares quiet and steady.

MINING SHARES.

There was a firmer feeling in the mining market, and increased activity in all leading stocks. Corydon and Gregory were the chief features; both advanced, and an active business; Columbia $8.20; Corydon $4.65@4.85; Gregory $8@8.25; Alameda $8.45; Quartz Hill $2.60.

NEW YORK, April 5.—Money a shade easier at 7 per cent. for call loans. Sterling dull at 108½@108¾ gold, for first class bills. Gold lower, opening at 133⅝, declining to 132⅞, and closing at 133. Government stocks quiet. Freights to Liverpool quiet and without decided change.

COPPER STOCKS.

Prices of mining stocks bid in Boston to-day: Canada, 50c; Copper Falls, 17; Franklin, 17; Hancock, 5; Huron, 8½; Quincy, 25.

MARKETS BY TELEGRAPH.

CHICAGO MARKET.

CHICAGO, April 5, 1867.

FLOUR—Firm and 25@50c higher; some holders are demanding an improvement of 50c on yesterday's figures; Spring extra $10.50@13.50.

WHEAT—There is a brisk speculative demand for wheat, and prices are 7@10c higher; sales of No. 1 at $2.80, and No. 2 at $2.50@2.70, closing quiet at $2.59 for No. 2.

CORN—Active and 3c higher; sales at 97c@$1.02 for No. 1; 90@92½c for No. 2, closing steady at $1.01@$1.02 for No. 1.

OATS—Active and 2½@3c higher; sales No. 1 at 55c; No. 2 at 52@53c.

RYE—Excited, buoyant and 5@6c higher; sales No. 1 at $1.38@1.42; No. 2 at $1.36@1.36½, closing firm and steady at $1.40 for Winter, and $1.41 for fresh receipts of No. 1.

BARLEY—There is a good inquiry for Barley, advancing 2@5c; No. 2 in store sold at $1.08.

HIGHWINES—More active at 23½@24c for bonded.

PROVISIONS—Dull; mess pork nominal at $22.50. Dry salted shoulders steady and quiet at 8c loose. Lard moderately active at 13c for prime steam.

LIVE STOCK—The market is panic stricken and almost lifeless, with a decline of 50c@$1 on Cattle and Hogs. Common Cattle $5.25@5.65, and $7.50@8.00 for good to choice shipping. Sales of Hogs light at $6.75@7.90 for common to extra choice smooth.

RIVER TELECRAMS.

Memphis.

MEMPHIS, April 5.—Weather clear and pleasant. River falling slowly. Business very dull.

RIVER NEWS.

STEAMERS ARRIVED AND DEPARTED.

Arrived.

Elizabeth	Houghton	Elizabeth.
Franklin	Bugher	Greensboro.
Elector	Phillips	Greensboro.
Elisha Bennett	Cox	Greensboro.
Fayette	Donaldson	Brownsville.
Grey Eagle	Brennan	Parkersburg.
Minnie	Shaw	St. Louis.
Echo No. 3	Gordon	Oil City.

Departed.

Franklin	Bugher	Greensboro.
Elector	Phillips	Greensboro.
Elisha Bennett	Cox	Greensboro.
Elizabeth	Houghton	Elizabeth.
Fayette	Donaldson	Brownsville.
Leni Leoti	Hamilton	Parkersburg.
R. Moore	Kerr	Portsmouth.
Belle Vernon	Dazragh	St. Louis.
Ida Rees No. 2	Rees	Oil City.

THE RIVER AND MATTERS ALONG THE WHARF.—The weather was changeable, April like. The Monongahela piers indicated nine feet five inches and rising slowly. Trade on the landing was not active. The boats have to wait some time before they can procure a trip that will justify them. The Minnie came in from St. Louis well loaded. Other boats are on their way, and may arrive at any hour. The Belle Vernon took her departure for St. Louis, with one of the largest trips of people that has left this season, principally farmers who seem to be in pretty good circumstances. The Grey Eagle is the Parkersburg packet for this day. She leaves at noon. The new sidewheel steamer Ezra Porter, takes her departure this day for Cincinnati. Persons going that way will bear this in mind. The Leni Leoti left for Parkersburg with a fair trip. The Robert Moore, as usual, left on time for Portsmouth. The Silver Lake No. 4, is announced for the Missouri River. The new sidewheel packet Dubuque will take her departure for St. Paul on Tuesday next, positively. She will be followed by the Columbia. The handsome steamer Peerless will load for the Upper Mississippi. The Leonora No. 2 is receiving for Nashville, and will have dispatch. The Maggie Hays is coming up with a big trip. The Armenia will be among the first boats to arrive. The Silver Cloud No. 2 is laid up at Cincinnati.

THE steamer Kate Robinson arrived at St. Louis on Wednesday; also the Savanna, with large trips.

THE steamer Hawkeye State was announced to leave St. Louis for Dubuque on the 4th.

IN TOWN—Captain Isaac Whitaker. His packet, the Guidon, is undergoing repairs at St. Louis.

A DISPATCH from New Orleans says the Great Republic created a great furore.

IF you want to purchase a steamboat, don't forget the sale of the Charley Bowen this day.

THE Leni Leoti left for Parkersburg on time, with a fair trip.

THE tow boat Diamond passed Cairo on the 2d with a big tow of coal for New Orleans.

EIGHT feet of water on Harpeth Shoals Tuesday and rising.

THE steamer Minnie has arrived from St. Louis with a big trip.

THE Robert Moore took her departure yesterday for Portsmouth in turn.

THE steamer Armenia passed Cincinnati on her way to this city, on the 4th.

THE pilots on the Belle Vernon that left last were Captain Marsh Hays and Thomas Morris.

THE talk on the landing yesterday was that the Peerless would enter the Pittsburgh and Cincinnati line. If she does the running will be done Brown.

THE steamer Alice Dean made the round trip from Cincinnati to New Orleans and back, including all detentions, in fourteen days and eighteen hours.

THE steamer Camelia re-shipped 2,000 sacks of wheat and eight hog-heads tobacco on the Maggie Hays, at Cincinnati, for this city.

A ROBBERY occurred on the Maggie Hays at Cincinnati on Tuesday. The cook of that craft was implicated.

THE steamer Julia No. 2 arrived at Nashville on Tuesday with three barges in tow. She would start on her return trip on Wednesday.

THE departures include the Belle Vernon for Missouri river with a large crowd of passengers and a good freight.

OUR old friend, Alfred B. Davitt, is one of the clerks of the Great Republic. He is an accomplished officer and a clever gentleman.

THE new steamer Dubuque has changed her day of departure to Tuesday, April 9th, at which time she will positively depart for the Upper Mississippi.

THE splendid side wheel steamer Ezra Porter will positively take her departure for Cincinnati on Saturday. Passengers and shippers can rely on this.

STEAMERS IN PORT.—Dubuque, Ezra Porter, Forest City, Delaware, Lorena, Ida Rees, Columbia, Grey Eagle, Leonora No. 2, Silver Lake No. 4, Peerless, Importer, Minnie and Kate Putnam.

THE fine packet Silver Lake No. 4, Captain Todd is announced for the Missouri river and the gold mines. Persons going that way will be well cared for on this boat.

THE Spray, Captain Smith, is announced to run as a weekly packet between this port and Portsmouth. She will leave on her first trip on Tuesday next.

THE Parkersburgh packet for this day is the steamer Grey Eagle, Captain Brennan. This boat is a general favorite, and has superior accommodations and attentive officers.

THE fine packet Columbia, Captain Reed, is announced for the Upper Mississippi. This boat is well found in every respect, and is in charge of careful and attentive officers.

THE new steamer Dubuque is attracting a good deal of attention, and deservedly so, as she is beyond all doubt the handsomest boat that goes above Saint Louis.

IN TOWN.—Capt. H. H. Devenny, one of the most gentlemanly and accomplished officers that comes to this port. We are glad to know that he is in the enjoyment of good health.

SPECIAL NOTICE.—The first class side wheel steamer Ezra Porter, Capt. J. H. Porter, takes her departure this day positively, for Cincinnati and intermediate ports. Call early and secure a state room. She will land you in Cincinnati on Monday morning.

BUSINESS on the landing yesterday was not very brisk, and boats have to wait some time before they can procure a trip. Passengers to the far West were pretty plenty—most boats carrying away a large number; destination principally Missouri.

THE fine steamer Leonora No. 2, Captain Davis, is announced for Nashville on Saturday. This boat is in complete order, and is well found in every respect. Captain Davis will be found careful and attentive. We take pleasure in saying a good word for boat and officers.

THE Tennessee River has been out of its banks, and all over the country. It was five feet higher than ever known before. The loss of property has been very great. Horses and stock were swept off in many places, and all along the river the wood that was corded on the banks, has been carried off, which makes it very difficult for boats to get fuel.

THURSDAY'S CINCINNATI GAZETTE ON THE SITUATION.—There was no perceptible change in business yesterday, the only event of note being an advance of New Orleans freight to 50c. Trade is dull in comparison to the business usually done at this time of the year. It is to be hoped this undesirable state of affairs will have a speedy change; that the wharf will assume a cheerful, business like appearance, and steamers be kept busy to the satisfaction of all interested.

THE New Orleans Crescent, of Saturday, says: By some inadvertence a repetition of news from Memphis, of the 27th, crept into our river columns yesterday, together with a notice of the new steamer Great Republic, taken from the Memphis *Avalanche*. We regret, exceedingly, the publication, as we do not coincide with the views of the *Avalanche* writer. On arriving at this port we shall visit the Great Republic, and then give our unbiased opinion of her merits or deficiency. Another break in the levees was reported yesterday at Hawes Harris's, which will prove disastrous to the rich parishes of Madison and Carroll, in the upper portions of this State, and as the river is still rising at Vicksburg, we fear the end is not yet.

THE fine side-wheel packet Ezra Porter, Captain J. H. Porter, leaves for Cincinnati on Saturday. This boat is winning golden opinions, as the following card from the passengers will testify. We heartily indorse the card in regard to boat and officers: The undersigned, having taken passage on the Ezra Porter, beg leave to express our gratitude in the following manner, so that others can embrace the opportunity of enjoying as pleasant a voyage as we have. The Ezra Porter is a vessel of the first-class in every respect. As to room, comfort, speed and neatness, it is all that the most fastidious could desire. She is manned by men of the first order. From the Captain down to the lowest dignitary all have done every thing possible to make passengers comfortable, by their politeness and attention.

The table is not only what might be called first-rate, but is positively a board of luxury, loaded with every good thing available. To all our friends we would most earnestly recommend this vessel. The charges for fare are quite moderate.

SAMUEL MILLER,
Superintendent B. U. Co., Bluffton, Mo.

Minerva Merrill, Letty H. Beatty, Kate R. Beatty, Hattie E. Merrill, Maggie Rankin, M. Isabella Miller, T. S. Foulks, Lizzie Carpenter, Mary L. Miller, Robert Beasley, W. S. Beatty, H. K. Campbell, and sixty-one others.

New and Splendid Boat.

Along the whole river line Pittsburgh is acquiring—indeed we may say has established—an unequalled reputation for the superiority of architecture, workmanship and finish of the steamboats that are constructed here. The "Great Republic," for instance, has been acknowledged, wherever she has been seen during her recent trip to New Orleans, as the most magnificent craft of her kind that ever floated on the face of our Western waters. As a less ambitious specimen of Pittsburgh skill and resources the new Northern Line Packet, "Dubuque" may fairly take rank with her for completeness and beauty of design and substantial elegance of execution. The "Dubuque" is unquestionably one of the handsomest and most commodious boats ever built for the upper Mississippi trade. She was modeled by Captain R. C. Gray, and Mr. W. C. Gray carefully superintended every stage of her construction. Her dimensions and capacity will be best understood when we say that she is 230 feet long, 36 feet breadth of beam, and 5 feet 6 inches depth of hold. Her cylinders are 20 inches in diameter with a 7 feet stroke. The diameter of the wheels is 26 feet, and they are furnished with 10 feet buckets of the most improved and effective description. Her hull was built by Dunlevy & Co.; her engines by P. Snowdon & Co.; her cabin was fitted up by Richardson, Wm. Lees doing the plain and some of the decorative painting; T. B. Young & Co. supplying the furniture, E. Edmundson the upholstery, Collins & McFarland the carpets, Fulton the pumbing and brass work, J. S. Kincaid the sheet iron work, and Caldwell & Brothers what may be described as the general outfit. There is very little gingerbread or useless glitter about the "Dubuque." She is plain, and neat, and comfortable, rather than showy. She is well and liberally furnished, but without any attempt to produce meretricious effect by a lavish display of useless ornament. The medallion and panel landscapes are the only extravagance in this particular, that has been indulged. Many of these are gems of drawing and color, and will add to the already well founded celebrity of Mr. Emil Bott, by whom they were painted. Added to the otherwise admirable appointments of the ladies' cabin, we must not forget to mention a superb square piano procured from the well-known establishment of Knabe & Co. The bedding, pantry-ware and other necessary details belonging to the steward's department are of the best possible kind, no expense having been spared in supplying all articles of convenient or luxurious detail. It is evidently the intention of Captain Gray to leave no endeavor unattempted which shall aid in making his boat a great credit on the day after which she is named, and we must say that we think his efforts have been crowned with brilliant and decided success. In acknowledgement of the compliment conveyed by the manner of her nomenclature the citizens of Dubuque are going to present the boat with a set of colors immediately on her arrival there, and the Common Council have voted to allow her free wharfage through the current year. The Dubuque will be commanded by Captain J. W. Parker, a careful, experienced and popular officer, who has been connected with the Northern Line ever since its organization. Mr. O. V. Danley, well-known for business tact and courtesy of manner as chief clerk, and Mr. Wm. Henderson, who possesses the qualities requisite for keeping a hotel, holds proprietorship of the saloon. On Tuesday next at 4 o'clock P. M. the Dubuque starts on her initial voyage. May she be attended by all the good fortune that her own superiority and the merits of those having charge of her deserve.
